# York chiller catalogue pdf

York water cooled centrifugal chiller catalogue. York yaep chiller catalogue. York yk chiller catalogue. York air-cooled chiller catalogue pdf. York centrifugal chiller catalogue. York absorpton chiller catalogue. York air cooled screw chiller catalogue. York water-cooled chiller catalogue pdf.

York chillers are designed to optimally perform in all conditions by maximizing the maximum benefits of environmentally responsible refrigerants. Efficient: Designed and designed with efficiency in mind. Versatile: Wide operating range for various applications. Sustainable: energy-efficient chillers, resulting in low total and indirect total emissions. Cooling capacity from 150 to 2.020 tons The centrifugal refrigerator of the magnetic bearing of YORK is built for decades of industry-leading refrigerant skills. The result is the first chiller completely optimized for the definitive performance with a low generation of GWP. It is the first chiller built to overcome every expectation ... today and tomorrow. For more detailed specifications, download a product catalog Cooling capacity from 250 to 3000 tons If a structure to the customer is a school building, hospital, skyscraper or a data center, our york centrifugal water cooler can handle the unique needs of the customer . For more detailed specifications, download a product catalog Cooling capacity from 165 to 1,000 tons This magnetic chiller addresses the most pressing concerns of the plant owner's energy, sustainability, sound time and operation. With a noise reduction of about 50% compared to competitor chillers, our YMC2 magnetic chiller is an advanced solution that will keep customers a step forward. For more detailed specifications, download a product catalog Cooling capacity from 125 to 300 tons with the infinite chiller configurations to help the customer achieve customer goals, York Yvwa Chiller presents the possibility of reducing the speed of the compressor, which means Increase energy savings and a reduced carbon footprint. The variable speed screw chiller with YVWA water cooling offers energy performance greater than all hours of operation. Enjoy the flexibility and convenience of a single chiller for many applications. For more detailed specifications, download a product catalog Cooling capacity from 50 to 200 ton Water-cooled York York scroll refrigerator to offer superior efficiency while helping the customer to remain environmentally friendly. Today's concerns about electricity and climate change are causing many buildings owners to use the most efficient HVAC technology and the YCWL water-cooled water-cooled scroll chillers give the customer the flexibility to do just this. For more detailed specifications, download a product catalog cooling capacity from 1,500 to 6,000 tons get the superior performance customer you want from a chiller that takes up less space with our YD double centrifugh re-chiller. This chiller has compact configurations for real efficiency and energy saving through variable speed, environmental sustainability and advanced reliability through advanced controls. For more detailed specifications, download a product catalog you are reading a free preview page from 7 to 9 are not shown in this preview. You are reading a free preview page from 16 to 33 are not shown in this preview. Tocoool has always maintained the leading position in China's refrigeration equipment approved ISO9001 and CE certifications that was listed on Shanghai Stockexchange in 2015 was honored as the Shenzhen High Tech Enterprise company and China National Enterprise of 2018 it has always been ... YorkA® water cooled chiller solutions help satisfy your efficiency needs of the building The largest variety of industrial and commercial water coolers on the market. From the reduction of the carbon footprint of your structure, to cut operating costs, our energy-saving chillers are customized to adapt to almost all applications. Download the product line product
