If you have questions or comments pls let me know! Get it here! Gear up and set forth on a campaign worthy of legend, for Hexxit has been unearthed! Dark dungeons, towering spires, weathered ruins and musty tomes lay before you. Lay claim to riches or create your own artifacts, tame beasts and carve out your own story in endless wonder. Alone or with friends, adventure awaits in Hexxit. Hexxit is a new collection of mods for Minecraft that put adventure above all else, in the style of old Dungeons and Dragons campaigns. Exploration is interesting, the dangers are greater and the sense of satisfaction of clearing out a dungeon is intense. The modlist is full of quality content from some very talented individuals. Be sure to head over to the donate page and show your appreciation! Hey guys, I've recently set up an adventure/Hexxit-like modpack for my own server. It's basically a mix of all the whacky/Hexxit-like mods I could find for 1.7.2. Here's a list of the mods: Advanced Genetics Batletowers Biomes o' plenty Blood Magic bsprksCore Custom NPCs DamageIndicators Doomlike Dungeons Duneonpack Floating Ruins Infernal Mobs Ruins Reptile mod Ropes+ TooManyItems Twilight Forest If anyone wants to try and make a public mod pack out of this, feel free to do so. Personally, I don't have the time to go through all the steps that are required to make an actual modpack of this, which is why I'm asking for help from you guys.
