## Bean veterinary services

Bean Veterinary Services is located in Meridian, (very near Star) Idaho. We are committed to providing high quality, compassionate medicine to your pets. Our clinic is designed for transparency, allowing us to provide care with you and your pet in the same room. Dr. Rebecca Bean has wanted to be a veterinarian since she was 10 years old. Dr. Bean completed her undergraduate work earning a degree in Animal Science at the University of Nevada, Reno. She went on to earn her Doctorate of Veterinary Medicine degree at Kansas State University. After graduation, she pursued her passion for equine medicine at Idaho Equine Hospital. She went on to develop a love of mixed practice and started Bean Veterinary Services, allowing her to take care of all sorts of four-legged pets and livestock.Dr. Bean is the oldest of three girls. She was born and raised in Dayton, Nevada and her parents still live in the house in which she was raised. She is the mother of a four-year-old girl and two year old twins, one boy and one girl! She is married to Star Native (and love of her life), Robert Bean. She met her husband through a friend and bonded over their love of animals, the outdoors, and building fence. She has a mini dachshund named Hershey and is looking forward to adding horse(s) to the family! She enjoys running, yoga, and playing with her kids. She also enjoys reading fiction, baking cookies, and anything that gets her outside.Although Dr. Bean's first passion is with her patients and providing excellent medical care, she also delights in partnering with pet owners and celebrating the human-animal bond. People from all walks of life come through the Bean Veterinary door to share a little piece of their story with Dr. Bean and her team. Pets share in our happiest moments and become irreplaceable companions during the hardest times. Witnessing that bond is one of the most meaningful parts of Dr. Bean's role in each of her patients' lives. It is very important to her that her clients' expectations are exceeded at every visit, and they leave knowing that their pet matters. She considers her role as a veterinarian an honor, a privilege, and a responsibility not to be taken lightly. Dr. Rebecca Bean founded Bean Veterinary in October of 2013. "Do something that scares you every day!" Have questions? Dr. Bean initially pursued a career in the human medical field but found veterinary medicine more to his liking since it was able to combine his love for animals and high quality medicine. Since he decided to make the switch, he has worked in nearly all levels of the veterinary field during his undergraduate and graduate studies. Dr. Bean earned his B.S. at Allegheny College in Pennsylvania and his DVM at The Ohio State University, and has since become a fervent Buckeye fan.Dr. Bean comes from a background in both small animal general practice and emergency medicine with particular interests in soft tissue surgery, dermatology, and feline medicine. He believes strongly in a scientific approach to treatment and the importance of educating pet owners in addition to making them partners in their pet's health.He is thrilled to now be in Chicago with his rescue cat, Zelda. When not in the clinic Dr. Bean loves being near the water and likes to spend as much time on the lake as possible. You can find him on the beaches or exploring the many Chicago neighborhoods and he is always looking for new and fun places in the city to visit.
