Good day, can you help me? I had this error when I compiled/ran my code on an emulator. This is the tutorial sample I used to do. I used min Target API - 15 and compile the latest gradle/com.android.support.design:23.0.0' Code error: AndroidRuntime: java.lang.RuntimeException: Unable to start ComponentInfo (com.eccp.projects.ecosavers.ecosavers/com.eccp.projects.ecosavers.MainActivity) Android.view.Inflation: line Binary XML 35:29: line Binary XML 35:29: error inflating class android.support.design.widget.NavigationView 12-29 06:43:39.409 3448-3448/com.eccp.projects.ecosavers E/Androidtime: at android.app.LauncherThread.LauncherThread(ActivityThread:2416) E/Android Runtime: Caused by: android (R.layout.activity_main);/SET my tool bar =(ToolBar findViewById(R.id.tool_bar); setSupportActionBar(toolbar); getSupportActionBar().setDisplayHomeAsUpEnabled(true); getSupportActionBar().setHomeButtonEnabled(true); NavigationView =true findViewById(R.id.NavigationView) mNavigationView.setNavigationItemSelectedListener() @Override public boolean onNavigationElementSelected (Menu item) {if (menu.isChecked() menu item.setChecked(false); else menuItem.setChecked(true);/closing on think dramclink Drawerlayout() . //Check to see which item has been clicked and make an appropriate action switch (menuItem.getItemId() //Replacing the main content Framment which is our Inbox View; case R.id.events: "Inbox Selected", Toast.LENGTH Short).show(); Eco-u events frammento = new Eco-u events(); Android.support.v4.app.FragmentTransaction Fragmentation Transaction = getSupportFragmentManager().beginTransaction(); FragmentTransaction.replace(R.id.frame, fragment); fragmenTransaction.commit(); returns true; // show a toast on case of click R.id.activity: Toast.makeText(getApplicationContext(), "Invia Selected", Toast.LENGTH SHURT).show(); real return; Case R.id.spam: Toast.makeText(getApplicationContext(), "Spam Selected", Toast.LENGTH Short).show(); real return; default: Toast.makeText(getApplicationContext(), "Somethings Wront", Toast.LENGTH SHURT).show(); returns true;); // Initialize Drawer Layout and ActionBar mDrawerlayout = (DrawerLayout) findViewById(R.id.cassetto); mDrawerToggle = new ActionBarDrawerToggle (this, mDrawerlayout, toolbar, R.string.drawerOpened, R.string.drawerOpened) {@Override public null onDrawerClosed(View) { // Code here will be activated once the drawer closes when we do not want anything to happen, so as to leave this super empty.DraonClosed(DrawerView) .} @Override public null onDrawerOpened(View drawerView) { // Code here will be activated once the drawer is opened as we do not want anything to happen, so let's leave this super-draonDrawerOpened(drawerView);} } //// Set the actionBarToggle to the layout of mDrawerlayout.setDrawerHearter(mDrawerToggle); // which calls the sync state is mDrawerToggle.syncState();}@ Override public boolean onOptions Selected (MenuItem voce) {recomment super.onOptionusIelectured(item);} XML: activity main.xml
