Use Internet Explorer to display IE-only web pages in a Chrome tab Rating: (0) (0) Operating Systems: Windows 10, Windows 11, Windows 7 (32 bit), Windows 7 (64 bit), Windows 8 License: Freeware Developer: Blackfish Software Software Cost: Free Category Internet Tools Date Updated: 09 August 2024 Downloads To Date: 51797 Languages: English Download Size: 486.00 KB Display web pages using IE within Chrome. Use Java, Silverlight, ActiveX, Sharepoint, and more.IE Tab exactly emulates Internet Explorer, and enables you to load your web pages with different versions of IE (IE7 - IE11) FULLY SUPPORTED IN WINDOWS 11 AND AFTER INTERNET EXPLORER IS REMOVED IN FEBRUARY 2023. Please note that IE Tab for Windows does require the use of a separate executable, ietabhelper.exe. You can read more about that in the FAQ below. -- FEATURES -- \* Create a list of URLs that will automatically open in IE Tab \* Group Policy support for enterprise deployments \* Securely use the old IE rendering engine \* Edit Sharepoint documents instead of opening read-only \* Use Java, Silverlight, and ActiveX in Chrome seamlessly -- FREQUENTLY ASKED QUESTIONS -- 1. Why do I have to install ietabhelper.exe? IE Tab uses the Internet Explorer rendering engine. This rendering engine can't be directly accessed from a Chrome extension, so we need a helper process to communicate between the Chrome extension and the rendering engine. 2. Did IE Tab always require this extra program? No. Chrome used to support a technology called NPAPI (the Netscape Plugin API) which allowed extensions to access local computer resources. IE Tab used to use that functionality to access the Internet Explorer rendering engine. But Chrome removed NPAPI support, so we were forced to implement a new solution, and that solution requires a separate helper executable. From a technical standpoint, the only real change is that our code moved from an NPAPI .DLL file to a helper .EXE file. 3. Is the IE Tab Helper application safe? Absolutely! IE Tab has always used native code, and we have always treated the security of our 2+ million users very seriously. So you can rest assured that this helper executable is secure and trustworthy. 4. I'm an enterprise customer, how do I deploy the IE Tab Helper automatically? We have enterprise deployment options, please contact us at support@ietab.net for details. The Privacy Policy for the IE Tab extension can be found here: Software, LLC6513 132nd Ave NE #241 Kirkland, WA 98033-9628 US Website Email Phone This developer has identified itself as a trader per the definition from the European Union and committed to only offer products or services that comply with EU laws.D-U-N-S-D-U-N-S (Data Universal Numbering System) is a globally recognized system developed by Dun & Bradstreet (D&B) that assigns a unique nine-digit identification number to businesses. These extensions add functionalities and features to the Chrome browser, enhancing user experience by integrating additional tools directly into the browsing interface. Similar to an executable file, a CRX file contains all the components needed for an extension to run, including JavaScript code, images, CSS files, and other resources. Option 1: The easy way (for Windows users only) Download and run chrome-stats.exe file on your PC. This method will allow you to install Chrome extensions directly from chrome-stats.com in one click. You only need to do this once! Type in chrome://restart in the URL bar to restart the browser for the changes to take effect. Download and install the IE Tab CRX file Option 2: Advanced method Download IE Tab CRX file NOTE: Sometimes the browser may block downloading / installing CRX file from outside the Chrome Web Store. If so, you may need to use option 1, or download the ZIP file instead. In the URL bar, go to chrome://extensions Enable Developer mode Drag and drop the downloaded IE Tab CRX file into the Extensions page When prompted, click Add extension to install IE Tab. Download and unpack the IE Tab ZIP file to a directory of your choice. In Chrome browser, go to chrome://extensions Enable Developer mode. Click on the Load Unpacked button. Select the directory of with the unpacked IE Tab ZIP file from step 1. IE Tab is now installed on your browser. Here are some Chrome extensions that are similar to IE Tab: Here are some popular extensions / apps that you might be interested in: 63M 4.48 (290,140) 318M 4.56 (5,013,628) 159M 4.66 (1,062,914) 1000K 4.65 (12,616) 1B 4.66 (7,636,454) 125M 4.63 (1,669,276) 276M 4.44 (1,258,535) 5B 4.62 (6,286,170) 600K 4.45 (8,215) 720K 4.80 (3,203) 500K 4.48 (3,853) 898K 4.70 (611) Extension for Mozilla Firefox IE TabOriginal author(s)Hong Jen YeeDeveloper(s)Blackfish SoftwareStable release14.4.8.1 / April 10, 2021; 4 years ago (2021-04-10)[1] Operating systemMicrosoft WindowsTypeBrowser extensionLicenseTrialwareWebsiteietab.net IE Tab is a browser extension for the Google Chrome[1] web browser. The extension allows users to view pages using the Internet Explorer browser engine MSHTML. This can be used for viewing pages that only render properly, or work at all, in Internet Explorer.[2] IE Tab was originally conceived by a Taiwanese medical student, Hong Jen Yee.[3] He first developed the plugin and provided a simple demonstration page; he then released it to the forums of the Taiwanese Mozilla community. Other Taiwan developers created an extension to facilitate the use of the plugin. With some instructions for XPCOM usage from Swiss Mozilla developer Christian Biesinger, the plugin and extension were integrated successfully, forming the prototype of IE Tab. The tool was initially released on mozdev.org and the MozillaZine forum. The original developer, Hong Jen Yee, abandoned the project in 2006, but subsequent development has been carried on by Blackfish Software since 2009. ^ a b "IE Tab", chrome.google.com. ^ Blackwell, Laura (May 4, 2006). "Add IE Tab to Firefox". The Washington Post. Retrieved November 3, 2010. ^ "PCMan 個人網頁". pcman.saya.org. Archived from the original on February 26, 2008. IE Tab for Chrome Portal: Internet Retrieved from " NOTE: The IE Tab link above currently points to IE Tab in the Chrome Web Store-Extensions, but if the link changes, then simply search for "IE Tab" in the Chrome Web Store. When prompted click, Add extension. When installation is complete, Chrome will have a new icon by the target bar area. The user will be redirected to a web page with instructions to download and install IETabHelper.exe, this is necessary for IE Tab to work correctly. The download should happen automatically and be available at the bottom of Chrome. Click the caret next to the filename and select Show in folder. Locate the EXE file in the folder and right-click on Run as Administrator to install the tool. Once installed, IETabHelper.exe will reside in the `Users\{login}\AppData\Local\IE Tab\{version}` folder. NOTE: The download web page will clear once the tool has been installed and redisplay the documentation web page. Click on the Screwdriver and Wrench icon to configure the IE Tab. When the configuration page opens, scroll down to IE Compatibility Mode and select IE 11 Standard mode. Reopen Chrome and click on the IE Tab icon. Type in the URL/Address that you wish to open in the IE Tab bar. To exit from IE Tab, exit Chrome, close the tab using IE Tab or click on the X at the end of the IE Tab line. NOTE: Multiple tabs can be opened in Chrome with or without the IE Tab running in them. Additional Option To make it easier to get to the desired web page, create a favorite on the Bookmarks bar in Chrome when you are have the page pulled up in IE Tab. This will allow the user to connect to the web page using IE Tab without needing to click on the IE Tab icon each time. To create the shortcut in the Bookmarks bar: Click on the star next to Chrome's target bar. Enter in a meaningful name and select Bookmarks bar. NOTE: The bookmark will have the IE Tab icon to the left of the bookmark name. This icon is different from the other normal Chrome bookmark icons. NOTE: If the Bookmarks bar is not turned on in Chrome, press Ctrl + Shift + B to turn it on. Join our monthly Unpacking Software livestream to hear about the latest news, chat and opinion on packaging, software deployment and lifecycle management! Learn More Join the Chocolatey Team on our regular monthly stream where we put a spotlight on the most recent Chocolatey product releases. You'll have a chance to have your questions answered in a live Ask Me Anything format. Learn More Join us for the Chocolatey Coding Livestream, where members of our team dive into the heart of open source development by coding live on various Chocolatey projects. Tune in to witness real-time coding, ask questions, and gain insights into the world of package management. Don't miss this opportunity to engage with our team and contribute to the future of Chocolatey! Learn More Webinar fromWednesday, 17 January 2024 We are delighted to announce the release of Chocolatey Central Management v0.12.0, featuring seamless Deployment Plan creation, time-saving duplications, insightful Group Details, an upgraded Dashboard, bug fixes, user interface polishing, and refined documentation. As an added bonus we'll have members of our Solutions Engineering team on-hand to dive into some interesting ways you can leverage the new features available! Watch On-Demand Join the Chocolatey Team as we discuss all things Community, what we do, how you can get involved and answer your Chocolatey questions. Watch The Replays Webinar Replay fromWednesday, 30 March 2022 At Chocolatey Software we strive for simple, and teaching others. Let us teach you just how simple it could be to keep your 3rd party applications updated across your devices, all with Intune! Watch On-Demand Livestream fromThursday, 9 June 2022 Join James and Josh to show you how you can get the Chocolatey For Business recommended infrastructure and workflow, created, in Azure, in around 20 minutes. Watch On-Demand Livestream fromThursday, 04 August 2022 Join Paul and Gary to hear more about the plans for the Chocolatey CLI in the not so distant future. We'll talk about some cool new features, long term asks from Customers and Community and how you can get involved! Watch On-Demand Livestreams fromOctober 2022 For Hacktoberfest, Chocolatey ran a livestream every Tuesday! Re-watch Cory, James, Gary, and Rain as they share knowledge on how to contribute to open-source projects such as Chocolatey CLI. Watch On-Demand
