He probado modo compatibilidad con xp sp2 y xp sp3 y nada. Lo curioso es que aparte de que en las particiones que visualizo no puedo desplegar la lista de archivos (sin +) si he probado con 20 juegos o solo tienen una unica particion o dos (particion 0:update,particion 1:data), la particion 2 nunca me aparece. Descargar el wi backup fusion y esta aplicacion si que extrae la imagen pero me llama la atencion lo mismo,en todos los juegos probados la particion 2 no existe. Seguire probando.Siempre lo he hecho con los juegos que le pasaba a una compañera, tiene wi con chip, quitaba error 001 y 002 aparte de la actualizacion. Si el juego descargado esta ya pasado por el wiiscrubber no se si esto puede afectar a la hora de volver a abrirlo, puesto que ya esta comprimido. Gracias por tu atencion.
