The purchase through Pay Pal was quick and easy .I clicked on the download button and in seconds was scrolling through my new digital factory parts manual!!! The next morning 6am(Christmas morning before the kids found me) I excitedly opened my computer to continue reading my manual and it was gone! the page said "access denied " time ran out ! my farm boy intelligence was frantic . After several attempts to try to figure it out, I decided at the very least I should send an email to the address provided. I was shocked to receive an immediate response from a REAL person with a link and AGAIN in seconds I was downloading my new Parts Manual!! this time for good!! and once again, Christmas morning at 7am!!!! I am nothing else but impressed!! and now I want to see what other digital manuals they may offer for some of my other dinosaurs in my fleet of farm and excavating machines. Additionally, I can't wait to share with a fellow farmer who cynically told me "You'll never find the right manual for that old dinosaur" Ha !! Signed, Very Happy service-workshopmanual.com Customer! Having received a new name, a new logo, a new color scheme, the Melroe loader became a new machine - a machine that will conquer success all over the world. Manufacturers wondered how best to position a new car? The new forklift was perfectly suited for use in fertilizer and dairy farms, so the forklifters stopped in white for painting the body, which was associated with cleanliness and disinfection. In order to find the best and unique name for the loader, they turned to the dictionary, sorting out the names of different animals: a lion, a tiger, a jaguar, a panther and, after all, a lynx. The dictionary gave a description of the trot (in English "bobcat"), which sounded like "a strong, fast, dexterous animal." Eureka! So the brand appeared Bobcat. History of BOBCAT Initially, the company was called "Melroe Manufacturing Company", and the name BOBCAT was first voiced in 1962, so called one of the models of the loader. The company gained popularity mainly thanks to the first mini-loader, invented almost 50 years ago in the USA for mechanization of labor-consuming loading and unloading operations in farms. In 1977, the Bobcat technique first entered the market of the USSR, mostly small-sized universal machines. In 1991, the official exclusive dealer of the American company Melroe, Scott-European Corporation, opened the first Moscow dealer center of the Technoplaza. From 1995 to July 2007, Bobcat was a division of Ingersoll-Rand Company, currently owned by South Korean company Doosan Infracore. The list of manufactured equipment includes: compact excavators, loaders, bulldozers and other hydraulic equipment.
