Customizable vowels change any lead or support volume separately, even with duets! dual screen display turn on dual display to show texts on TV or projector connected to your computer. Custom key and time changes the key and time at any time during the song. save your favorites from the sidebar, access the song's tail and easily find your favorites, save offline songs and history, as well as all karafun music genres. kara. fun gives you more than 42,000 high quality karaoke songs recorded in professional studios. your device immediately becomes the perfect karaoke machine! a single click active dual display, an additional karaoke window that you can move on the external monitor or projector. To organize a karaoke party in the boondocks? kara. the fun covered you even when there is no internet. sync your favorite songs offline and keep the party moving! customize the key and time of any song in our catalog or add lead and background voice. as frankie said: "I sang my way." you just sang a lot of great songs, but you need a way to find them easily for your next karaoke session. just add them to your favorites: keep all the songs you love in a convenient location. you want moreThe part is for you! Version Notes Version 2.6.2.0 This is a maintenance release that fixes some internal bugs. KaraFun Player 2.5.2.3 'is the season... to sing! Kara. Fun The player has been improved and should take all pesky bugs for a Sleigh ride. Kara. Funny player 2.5.1.3 Give me to K. Damme to A... This time for missing offline files are back in the field. Ready. Calm down. KaraFun Player 2.5.1.2 Here comes the sun (said George)! Here comes KaraFun Player in shape and tan for the summer (may say George). After a few weeks in work, our most popular app put on the swimsuit for some serious Binge Canta in the pool! == NEW FEATURES == • Long live the remote, allowing you and your guests to send their karaoke requests without moving from the barbecue (or from the pool, if you are lucky)! › IMPROVEMENTS == • Improvement of performance (it is a large family, and we cannot introduce all members here). • Improved position of the logo on the screen. • Now view the total length of local files if available. • The Standby screen now shows up on the community-loaded CDG files. › BUGFIX ===== • Offline Sync should now be more resilient and stable (such as offline files are no longer in the course of impromptu holidays). Happy Sunny Summer!
