Getting back onto a bike wasn't easy and it took a long time for...Read more... Kat has spent years touring the UK and Europe by motorcycle, car and motorhome. It was the idea of motorcycle touring which pushed her to go from nervous new biker to excited explorer and she still can't believe some of the crazy mountain roads she's ridden! She has owned several bikes, with her favourites being a Triumph Scrambler for long rides and her current speed demon- a ZX6R (both male and female) gain the confidence to have their own epic adventures. Ride safe! Free Motorcycle Theory Test You have 57 minutes to answer 50 multiple choice motorcycle theory test questions. You need to score at least 43 out of 50 to pass the test. Answers may be checked after each question by clicking the 'check answer' button or you can wait until the end of the test to review your final score. Best of luck! Sign up to keep track of your progress Reveal all questions for this test V Correct Answer: D The tyre pressure Explanation: Carrying extra weight, such as luggage or a pillion passenger, can affect the feel and handling of your motorcycle. If possible, some items may need to be adjusted to help overcome this. These adjusted to help overcome this. does this sign mean? Mark one answer A No parking for solo motorcycles Explanation: In some towns and cities there are special areas reserved for parking motorcycles. Look out for these signs. Correct Answer: B Parking for solo motorcycles C Passing place for motorcycles Explanation: In some towns and cities there are special areas reserved for parking for solo motorcycles. The make and model Explanation: Every vehicle should have a registration document showing the registered keeper. It's your legal responsibility to make sure all the information is correct. This includes make, model and engine size. If you buy a new vehicle, the dealer will register it with DVLA, who will send the registration document to you. Correct Answer: D Velcro tab Explanation: Some helmet straps have a velcro tab in addition to the main fastening, which is intended to secure the strap so that it doesn't flap in the wind. It shouldn't be used on its own to fasten the helmet. warn following traffic of an obstruction or danger ahead. This only applies on motorways and dual carriageways that are subject to the national speed limit. The hazard warning lights should be turned off again when it's clear the warning has been seen. Correct Answer: B The registered keeper's name Explanation: Every vehicle on the road has a registration document. This records any change of ownership and gives specific information relating to the vehicle and owner. This includes the date of first registration, the registration number, the make and colour of the vehicle, and the registration number. winds when riding on exposed stretches of road. Take extra care when overtaking large vehicles. As you pass them, you may emerge from their shelter into a gust of wind that strong winds can affect the stability of other road users too. Correct Answer: A A bus may have left patches of oil Explanation: Try to anticipate slippery road surfaces. Watch out for oil patches at places where vehicles stop for some time, such as bus stops, lay-bys and busy junctions. Correct Answer: C Take a lifesaver glance over your left shoulder Explanation: On busy roundabouts, traffic may be moving very quickly and changing lanes suddenly. You need to be aware of what's happening all around you. Before crossing lanes to the left, make sure you take a lifesaver glance to the left. This gives you time to react if it isn't safe to make the manoeuvre. 12. What does 'tailgating' mean? Mark one answer A Driving with rear fog lights on B Following another vehicle too closelyC Reversing into a parking spaceD Using the rear door of a hatchback car Correct Answer: B Following another vehicle in front too closely. It's dangerous because it restricts their view of the road ahead and leaves no safety margin if the vehicle in front needs to slow down or stop suddenly Tailgating is often the underlying cause of rear-end collisions or multiple pile-ups. Correct Answer: B To help the traffic flow Explanation: Inconsiderate parking restrictions. Driving slowly in traffic increases fuel consumption and causes a build-up of exhaust fumes. Correct Answer: C Slow down and get ready to stop Explanation: Look well ahead to see whether any hazards are developing. This will give you more time to deal with them in the correct way. The man in the picture is clearly intending to cross the road. You should be travelling at a speed that allows you to check your mirror, slow down and stop in good time. You shouldn't have to brake harshly. Correct Answer: A By displaying a 'stop' sign, you must stop. Don't wave anyone across the road and don't get impatient or rev your engine. 16. Where would you see this sign? Mark one answer A At playground areasB At the side of the roadC In the window of a car taking children to school bus or coach Explanation: Vehicles that are used to carry children to and from school bus or coach Explanation: Vehicles that are used to carry children to and from school bus or coach Explanation: Vehicles that are used to carry children to and from school bus or coach Explanation: Vehicles that are used to carry children to school bus or coach Explanation: Vehicles that are used to carry children to and from school bus or coach Explanation: Vehicles that are used to carry children to school bus or coach Explanation: Vehicles that are used to carry children to school bus or coach Explanation: Vehicles that are used to carry children to school bus or coach Explanation: Vehicles that are used to carry children to school bus or coach Explanation: Vehicles that are used to carry children to school bus or coach Explanation: Vehicles that are used to carry children to school bus or coach Explanation: Vehicles that are used to carry children to school bus or coach Explanation: Vehicles that are used to carry children to school bus or coach Explanation: Vehicles that are used to carry children to school bus or coach Explanation: Vehicles that are used to carry children to school bus or coach Explanation: Vehicles that are used to carry children to school bus or coach Explanation: Vehicles that are used to carry children to school bus or coach Explanation: Vehicles that are used to carry children to school bus or coach Explanation: Vehicles that are used to carry children to school bus or coach Explanation: Vehicles that are used to carry children to school bus or coach Explanation: Vehicles that are used to carry children to school bus or coach Explanation: Vehicles that are used to carry children to school bus or coach Explanation: Vehicles that are used to carry children to school bus or coach Explanation: Vehicles that are used to carry children to school bus or coach Explanation: Vehicles tha following a vehicle with this sign, be prepared for it to make frequent stops. It might pick up or set down passengers in places other than normal bus stops. Correct Answer: C Cyclists and pedestrians and are allowed to cycle across when the green cycle symbol is shown. Correct Answer: A Explanation: When you pass pedestrians in the road, so look well ahead, as well as in your mirrors, before pulling out. Take great care if a bend in the road obscures your view ahead. 22. What does a red traffic light mean? Mark one answer A Proceed with careB Stop, if you're able to brake safelyC You must stop and wait behind the stop line Explanation: Whatever light is showing, you should know which light is going to appear next and be able to take appropriate action. For example, when amber is showing on its own, you'll know that red will appear next. This should give you ample time to anticipate and respond safely. Correct Answer: A Carry on with great care Explanation: When traffic lights are out of order, treat the junction as an unmarked crossroads. Be very careful and be prepared to stop; no-one has priority. Correct Answer: B Hold back until the cyclist has passed the junction Explanation: Make allowances for cyclists, and give them plenty of room. Don't overtake slower traffic Explanation: Normally you should travel in the left-hand lane and only use the right-hand lane for overtaking or turning right. Move back into the left lane as soon as it's safe but don't cut in across the path of the vehicle you've just passed. Correct Answer: C Steady amber Explanation: Puffin crossings have infra-red sensors that detect when pedestrians are crossing and hold the red traffic signal until the crossing is clear. The use of a sensor means there's no flashing amber phase as there is with a pelican crossing. Correct Answer: C A school bus Explanation: Buses which carry children to and from school may stop at places other than scheduled bus stops. Be aware that they might pull over at any time to allow children to get on or off. This will normally be when traffic is heavy during rush hour. Correct Answer: A When in queues and traffic is moving in queues and the queue on your right is moving more slowly than the one you're in. Correct Answer: A Cyclists and pedestrians Explanation: There are some crossings where cycle routes lead cyclists to cross at the same place as pedestrians. These are called toucan crossings. Always look out for cyclists, as they're likely to be approaching faster than pedestrians. Correct Answer: D Reassure them Explanation: A casualty suffering from shock may have injuries that aren't immediately obvious. Call the emergency services, then stay with the person in shock, offering reassurance until the experts arrive. Correct Answer: C Look over your shoulder for a final check Explanation: Before you move off from the side of the road, you should take a final look over your shoulder for a final check Explanation: Before you move off from the side of the road, you should take a final look over your shoulder for a final check Explanation: Before you move off from the side of the road, you should take a final look over your shoulder for a final check Explanation: Before you move off from the side of the road, you should take a final look over your shoulder for a final check Explanation: Before you move off from the side of the road, you should take a final look over your shoulder for a final check Explanation: Before you move off from the side of the road, you should take a final look over your shoulder for a final check Explanation: Before you move off from the side of the road, you should take a final look over your shoulder for a final check Explanation: Before you move off from the side of the road, you should take a final look over your shoulder for a final check Explanation: Before you move off from the side of the road, you should take a final look over your should be the side of the road of t to check your blind spot. This will help you to see any road user who isn't visible in your mirrors. Correct Answer: B Keep the cable oiled evil help it to move smoothly through its outer casing. This will extend the life of the cable oiled Explanation: Keeping the clutch solution from becoming stiff. Correct Answer: A set of the cable oiled evil help it to move smoothly through its outer casing. To check for any overtaking traffic Explanation: The lifesaver glance makes you aware of what's happening behind and alongside you before you alter your manoeuvre. 41. What does this sign mean? Mark one answer A End of clearwayB End of cycle routeC End of restricted parking area Explanation: Even though you've left the restricted parking area Explanation: Even though you've left the restricted parking area Explanation: Don't wait until the last moment before moving into the left-hand lane. Plan ahead and don't rely on other traffic letting you in. 43. What does this sign mean? Mark one answer A All lorries Correct Answer: B Lane for heavy and slow vehicles Explanation: Where there's a long, steep, uphill gradient on a motorway, a crawler lane may be provided. This helps the traffic to flow by diverting the slower heavy vehicles into a dedicated lane on the left. 44. What does this sign mean? Mark one answer A Amber signal out of orderB New traffic lights aheadC Temporary traffic lights aheadD Traffic lights out of order Correct Answer: D Traffic lights out of order Explanation: You might see this sign where traffic lights are out of order. Proceed with caution, as nobody has priority at the junction. Correct Answer: D Keep the other vehicle to your right and turn behind it (offside to offside) Explanation: At crossroads, traffic normally turns offside to offside. This is the safest way to turn, but sometimes the layout or road markings indicate drivers should pass nearside to nearside. Take extra care at these crossing in front of you. Correct Answer: D Slow down and be ready to stop Explanation: Be particularly careful when approaching horse riders - slow down and be prepared to stop. Always pass wide and slowly, and look out for signals given by the riders. Horses are unpredictable: always treat them as potential hazards and take great care when passing them. Correct Answer: D Your original route may be blocked Explanation: It can be frustrating and worrying to find your planned route is blocked by roadworks or diversions. If you've planned an alternative, you'll feel less stressed and more able to concentrate fully on your driving or riding. If your original route is mostly on motorways, it's a good idea to plan an alternative using non-motorway roads. Always carry a map with you just in case you need to refer to it. 50. What does this sign mean? Mark one answer A No pedestrians allowedB Pedestrians crossing ahead Correct Answer: D Zebra crossing ahead Correct Answer: D Zebra crossing ahead Correct Answer A No pedestrians allowedB Pedestrians and be ready to stop for any pedestrians allowedB Pedestrians and be ready to stop for any pedestrians allowedB Pedestrians crossing ahead Correct Answer: D Zebra crossing ahead Correct Answer A No pedestrians allowedB Pedestrians allowedB Pedestrians and be ready to stop for any pedestrians allowedB Pedestrians and be ready to stop for any pedestrians allowedB Pedestrians allow looks like they might step or run into the road. Read less The motorcycle theory test currently costs £23. You're able to book your theory test via: Test sessions are usually available during the day and in the evenings from Monday to Saturday. Remember, if you have to cancel your motorcycle theory test appointment, you must provide at least a three working day notice. Failure to do so will result in the loss of your theory test fee. You must also inform the DVSA of any hearing difficulties, dyslexia, or light-sensitive epilepsy. In Northern Ireland driving tests follow the same layout, but are instead administered by the DVA (Driver and Vehicle Agency). What you should take with you At the theory test centre, you will be required to present: Photocard driving licence - If this is of an older style, you will also require a passport copy. Failure to bring this will result in the forfeiture of both your test and fee. Please make sure you arrive on time for your motorcycle theory test. Don't forget to set a reminder on your mobile device and/or calendar to ensure you don't forget. In order to pass the multiple-choice exam section of the motorcycle theory test (questions and answers), you will need to answer at least 43 out of 50 of the questions correctly within the 57 minutes you have for the exam. Please note that when you are booking your test, if you are a candidate with special requirements, you are able to apply for extra time. Like the driving theory test, each question will have four possible answer you think is correct. You will touch the screen beside the answer you think is correct. You will touch the screen beside the answer you think is correct. will be presented as a case study. These questions will be based on a real-life scenario that you may experience whilst riding. There will be 5 questions per case study. If you have selected the wrong answer, you can touch the screen again in order to change your selection. Marking a question with a flag will allow you to revisit the question at a later stage. The system will prompt you to revisit any unanswered questions. You will be given a three-minute break after the multiple-choice test The 50 questions that make up the multiple-choice part of the motorcycle theory test will be similar to those that are included in the mock tests on this website. Consider signing up for an account and practice these theory test categories. These are: Alertness Attitude Documents Hazard Awareness Incidents, Accidents and Emergencies Motorcycle Handling Motorcycle Loading Motorcycle Safety and Your Motorcycle Safety and Traffic Signs Rules of the Road Safety and Your Motorcycle Safety Margins Vulnerable Road and Traffic Signs Rules of the Road Safety and Your Motorcycle Safety and Your Motorcycle Safety Margins Vulnerable Road and Traffic Signs Rules of the Road Safety and Your Motorcycle Safety Margins Vulnerable Road and Traffic Signs Rules of the Road Safety Margins Vulnerable Road and Traffic Signs Rules of the Road Safety Margins Vulnerable Road and Traffic Signs Rules of the Road Safety Margins Vulnerable Road Safety motorcycle hazard perception test will consist of 14 videos, each about a minute in length, that demonstrate road situations that involve other users of the road. As soon as you notice a developing hazard i.e something that forces you to change your speed or direction, click your mouse. You will be scored higher the earlier you spot and respond to a potential danger. A red flag will appear at the bottom of your screen every time the mouse is clicked. There will be 15 scorable hazards you can score a maximum of five marks for each hazard. Note that unlike the multiple-choice part of the test, you won't be able to return to a hazard in order to change your response. No points will be lost if you identify a non-scorable hazard. If you click the mouse repeatedly or in a systematic way in the hope of getting maximum points, you may be penalised and receive no points for that particular video clip. The pass mark for the motorcycle hazard perception test is 44 out of 75. This is the same as the pass mark for the hazard perception test for car drivers. What is a developing hazard? To understand what a developing hazard? To understand what a developing hazard? it's not doing anything to force you to change speed or direction. Clicking the mouse at this point during the hazard perception test won't score you any points, although there is no harm in clicking as you won't lose any points either. If the car then starts to indicate and the driver begins to pull out onto the road, causing you to slow down, this is now a developing hazard and you should click the mouse at this point to demonstrate that you have identified the hazard. How to prepare for the motorcycle hazard perception test will be computer-generated (CGI). Before 2015, the video clips consisted of real-life scenarios showing everyday road scenes. However, the concept is still the same. To prepare for this part of the test, we have put together a large database of hazard perception test videos with dozens of CGI and real-life video clips for you to practice with. You will receive a score and an explanation for each practice clip. You can also practice hazard perception when you're on the road, even as a passenger. To do so, observe and scan the road ahead to identify any potential hazards. It's also a good idea to talk to your instructor about hazard perception. After taking both parts of the motorcycle theory test, you will receive your results along with some feedback within 10 minutes or so. In order to pass the theory test as a whole, you must pass both sections. Failing one part and passing the other would still result in an overall fail. If you have failed, try not to worry too much. When you pass your motorcycle theory test, you will receive a pass certificate which will be valid for 2 years. Failure to book and complete your practical test within this time period will mean that you will have to retake your theory test. After the Motorcycle Theory Test Compulsory Basic Training (CBT) course and be in the possession of a valid CBT certificate of completion (DVL196). CBT training can only be carried out by DVSA-approved organisations. The course consists of classroom and practical skills training. Note: If you're upgrading from one A category to another, for example from A1 to A, you needn't apply for compulsory basic training. Motorcycle Test The motorcycle practical test consists of two separate modules. You can only take the second module after passing the first module. Module one consists of several off-road exercises whilst module two is an observed ride of a public road. Module One This module costs £15.50. This is conducted at an MPTC (Multipurpose Test Centre). You will also be asked two safety check questions pertaining to your bike, and a question about a carrying passenger. You'll also be required to pass a simple eyesight test. Module Two This module costs £75, or £88.50 on weekday evenings, weekends, and bank holidays. You will be followed by the examiner around the test route and will receive instructions from the examiner or traffic signs. Therefore, if you receive no instruction at a roundabout, take the exit that is straight ahead. Preparing for the MSF (Motorcycle Safety Foundation) exam is crucial for anyone looking to obtain their motorcycle license. The exam assesses your understanding of essential concepts related to motorcycle safety and riding practices. To help you succeed, we offer a free MSF Practice Test 2025 online that will enable you to gauge your knowledge and readiness for the exam. Our MSF Practice Test 2025 is designed to replicate the format and content of the actual exam. By taking the practice test, you can familiarize yourself with the types of questions you'll encounter, gain insights into your strengths and weaknesses, and identify areas where additional study may be required. This valuable tool will give you the confidence and edge you need to excel on the MSF exam. Our practice test covers a range of topics, including safe riding techniques, traffic laws, protective gear, and more. By thoroughly reviewing these key concepts and practicing with our test, you'll be well-prepared to pass the MSF exam and obtain your motorcycle license. Preparing for the MSF exam is essential for obtaining a motorcycle license. Our free MSF Practice test familiarizes you with the exam format and content. Identify areas where additional study may be required using the practice test. Thoroughly reviewing key concepts will boost your chances of passing the MSF exam. In order to achieve success on the MSF (Motorcycle Safety Foundation) exam and obtain your motorcycle license, thorough preparation is key. This section will delve into the details of the exam and provide you with valuable practice questions to help you familiarize yourself with the format and content. Additionally, we will discuss the importance of utilizing a comprehensive study guide to enhance your preparation for the MSF written exam. By the end of this section, you will feel confident and well-prepared for the motorcycle permit test. Let's start by exploring the format and content of the MSF exam. The exam consists of multiple-choice questions that assess your knowledge of motorcycle safety practices, traffic laws, and riding skills. To ensure that you are adequately prepared, it is crucial to familiarize yourself with the types of questions; What should you do if your motorcycle starts to wobble? When approaching an intersection, what should you do to increase your visibility to other drivers? What does the term "SMIDSY" stand for? When preparing to make a turn, what should you do to maintain traction? Taking the time to answer these practice questions will help you develop a better understanding of the topics covered in the MSF exam and identify areas where you may need additional study. It is recommended to review the questions and refer to the study guide for in-depth explanations. A well-designed study guide provides a comprehensive overview of the exam topics and breaks them down into easily digestible sections. It includes key concepts, explanations, tips, and examples to help reinforce your understanding. In addition to the practice questions provided, the study guide serves as a valuable resource to review and reinforce your knowledge.Pro Tip: To maximize your studying efficiency and effectiveness, create a study schedule that allows you to cover all the relevant topics in a systematic manner. Designate specific time slots dedicated to practicing the questions and reliable study guide, you can confidently prepare for the motorcycle license test and ensure that you are well-prepared to tackle the MSF written exam. The next section will provide your with tips and advice to boost your overall motorcycle safety knowledge is crucial for both passing the MSF exam and becoming a safer rider on the road. One of the most effective ways to accomplish this is by enrolling in a motorcycle safety course. These courses are specifically designed to provide comprehensive training on safe riding practices and equip you with the necessary skills to handle various road scenarios. During a motorcycle safety course, you will learn essential topics such as defensive riding techniques, proper braking and cornering maneuvers, and hazard awareness. The practical riding exercises and classroom sessions will allow you to practice and internalize these concepts in a controlled environment under the guidance of experienced instructors. By taking a motorcycle safety course, you not only gain valuable knowledge but also develop the confidence to handle potentially dangerous situations on the road. The hands-on training and feedback received during the course will help you refine your riding skills and instill safe habits that will stay with you throughout your riding journey. Moreover, completing a motorcycle safety course may offer additional benefits, such as insurance discounts or the opportunity to waive the riding portion of the motorcycle licensing test. So, not only will you improve your performance on the MSF exam, but you may also enjoy other perks that come with demonstrating your commitment to safe riding. The MSF exam, short for Motorcycle Safety Foundation exam, is a written test that assesses your knowledge of motorcycle license or permit. Preparation is crucial for the MSF exam as it ensures that you have a solid understanding of essential motorcycle safety and regulations. It is that assesses your knowledge of motorcycle safety and regulations. It is that assesses your knowledge of motorcycle safety and regulations. It is that assesses your knowledge of motorcycle safety and regulations. It is that assesses your knowledge of motorcycle safety and regulations. It is that assesses your knowledge of motorcycle safety and regulations. It is that assesses your knowledge of motorcycle safety and regulations. It is that assesses your knowledge of motorcycle safety and regulations. It is that assesses your knowledge of motorcycle safety and regulations. It is that assesses your knowledge of motorcycle safety and regulations. safety concepts. By preparing, you increase your chances of passing the exam and becoming a safer rider. A free MSF practice test allows you to simulate the actual exam. The MSF exam covers a range of topics essential for motorcycle safety, including riding techniques, traffic laws, hazard awareness, and road signs. It also emphasizes the importance of defensive driving and proper safety guides, and online courses. Utilizing these resources can significantly enhance your chances of success. Absolutely! A study guide provides additional explanations, examples, and practice questions, further reinforcing your understanding of the material. Taking a motorcycle safety course is highly beneficial before attempting the MSF exam. These courses provide hands-on training, practices. They can significantly enhance your knowledge and understanding, leading to better performance on the exam. Apart from studying for the MSF exam, there are other ways to improve your motorcycle safety knowledge. Regularly reading motorcycle safety seminars, and joining rider groups can all contribute to expanding your knowledge and becoming a safer rider.
