Mappa metro di londra pdf

Updated: January 2025 Information about the London Underground: maps of daytime services, fares, timetables, maps of each tube line, maps of the night tube services, and the railway lines connecting each end of Greater London. → Click to visit "Night Tube" section → The Tube: Each of the 11 Underground lines is depicted in a distinct colour, represented by a bold line. The array includes the Bakerloo, Central, Circle, District, Hammersmith & City, Jubilee, Metropolitan, Northern, Piccadilly, Victoria, and Waterloo & City lines. Trains: Services such as the DLR, London Overground, and the Elizabeth Line are depicted by parallel lines (=) on the map. Interchanges: Key spots to hop between Tube lines are shown as white circles with a stark black outline. Zoning Out: The city's transport network is divided into 9 zones. Central London falls into Zone 1, while Zone 6 touches the outskirts. For the prime spots and tourist hotspots, stick to Zones 1 & 2. Fare Guide: Prices range from £6.70 to £9.80, depending on the zone. Save with an Oyster Card or a Visitor Oyster Card, with fares reducing to between £2.70 and £3.60 off-peak, and £2.80 to £5.60 during peak times. Tube Timings: The Underground runs from 5:00 am till midnight, Monday to Saturday, and from 7:00 am till 11:00 pm on Sundays. Rush hours are weekday mornings from 6:30 am to 9:30 am and evenings from 4:00 pm to 7:00 pm, excluding bank holidays. For precise times, please consult our detailed timetable. If you need information about a particular line, you can click on any of the links below and access individual maps of the London Tube and Overground lines. Click on a line to get more information. Underground lines Overground lines About the London Underground and its map The London Underground, better known as the Tube, is one of the most extensive networks in the world. In London, the tube is connected and integrated with trains and trams. There are ticket vending machines where you can buy tickets or top-up prepaid cards. You must touch your card or ticket at the yellow reader at the beginning, and at the end of your journey. There are various concessions available for children and senior citizens. Where to find a list of all shows and attractions in London? We recommend you visit this website to discover all the attractions and shows in London, their descriptions, photos, schedules, and in some cases, discounted prices. There are things you probably didn't even know existed. London Underground: A Masterclass in Design London's Tube is not just a transport system; it embodies the city's essence. Its three hallmark design elements have been trademarked, elevating London to iconic status on a global scale, truly incomparable. Harry Beck's visionary TUBE MAP. The distinctive Roundel emblem. The Johnston typeface, utilized across posters and maps. The Tube map, a brainchild of Harry Beck in 1931, adopts a schematic approach, simplifying the intricate routes of the transport system (its schematic nature means it doesn't adhere to actual distances). This map's design principle has been adopted globally across various underground and railway networks. Its influence extends beyond transport into sectors like aviation. Initially dismissed by the railway company, Beck's concept has since become a standard. Mr. Beck, working for the railway at the time, faced initial rejection of his map. The Roundel, symbolizing the underground, features a circular motif with a bar bearing the red, white, and blue colours, conceived in 1900 and finding inspiration in Paris metro's promotional materials. The design set is rounded off with the "Johnston" typeface, visible on maps and signage throughout the Underground, as well as on Overground and TFL-affiliated railways. This typeface was specifically crafted for the Tube. Questions and answers What are the London Underground zones? London Transport is organised into 9 concentric zones. Zone 1 is the historic centre. Zone 6 is the beginning of the suburbs. #TipForTourists When buying tickets for the London Transport, ticket machines will prompt you to select the zones to visit to give you the lowest price, all attractions are within zones 1 and 2, therefore, you should buy tickets to move between those zones. Why are there different types of lines on London Underground maps? The Underground is divided into 11 lines. Each line has a different colour and it is represented by a "full line". Trains and Trams are represented by two parallel lines (=). What's a railway? A train moves over a steel railway track. Locomotives pushed the wagons to travel over ground. The London Underground network is integrated with DLR trains, London Overground, and the Elizabeth Line. What is DLR? It stands for Docklands Light Railway. It is a driverless train network. The DLR is similar to the Tube, but it runs above ground rather than on underground tunnels and it is divided into 6 routes. Is Elizabeth Line a tube? It's a nuanced question because the Elizabeth Line, despite including the word "line" in its name, is technically a train service. The Elizabeth Line operates on traditional railway tracks, features larger carriages compared to typical Tube trains, and its doors do not open automatically like those on the Tube. The term "line" is often associated with underground services, but in the case of the Elizabeth Line, it refers to a railway service that operates both above and below ground. How many lines does the London Underground have? The London Underground has 11 lines: Bakerloo, Central, Circle, District, Hammersmith, Jubilee, Metropolitan, Northern, Piccadilly, Victoria and Waterloo. The rest of the lines, although transport lines, run above ground. Why is the London Underground called the Tube? It is so named due to the tubular shape of its tunnels. Which was the first city in the world to have an underground railway? The first city in the world to inaugurate an Underground was London When did the London Underground open? The London Underground, with its first section, the Metropolitan Railway, opened in 1863. This was the world's first underground railway. How many stations does the London Underground have? Nowadays it has 272 stations. How many passengers travel on the London Underground each day? The latest figures (year 2022), show that 5 million passengers, mainly "commuters", use the Underground every day. London tube map | Timetable | Fares | All tube lines Vedi qua sotto la cartina della metropolitana di Londra: è una mappa interattiva dove puoi usare il campo Search for a stations per individuare le singole stazioni e visualizzarle nella mappa insieme alle linee servite. Questo è un tool ufficiale TFL. Se hai un viaggio imminente, leggi la guida sulla Metro di Londra per saperne di più. Una vasta scelta di mappe e cartine di Londra è disponibile anche online: di seguito qualche link utile. TUBE MAP Cartina della metro scaricabile in .pdf, completa di servizi alle stazioni e indicazioni sull'accessibilità NEARBY Cartina interattiva per vedere fermate bus, linee e stazioni nella tua zona o in un dato indirizzo TUBE AND RAIL Cartina interattiva delle linee metro e delle linee ferroviarie che servono l'area metropolitana RIVER SERVICE MAP Guida e mappa con le linee dei principali collegamenti via fiume TUBE, DLR, TRAIN MAP Cartina in .pdf con i colori per le diverse zone Travelcard di Londra TOILETS MAP Una normale mappa della metropolitana .pdf dove sono evidenziate le stazioni in cui si possono trovare i servizi igienici (con diversi colori a seconda se la toilette si trova prima o dopo la barriera) KEY ROUTES IN CENTRAL LONDON Cartina scaricabile in .pdf con le principali linee bus del centro di Londra. Utile perché riporta graficamente attrazioni e punti di riferimento importanti Oltre a queste mappe scaricabili di Londra, potrebbe interessarti la MAPPA DEL CRIMINE, mappa interattiva curata dalla Metropolitan Police che rappresenta graficamente densità e diffusione dei reati a Londra, e la MAPPA TURISTICA DI LONDRA, strumento indispensabile per individuare rapidamente tutte le attrazioni su una mappa! Mappe e cartine dei trasporti di Londra sono comunque facilmente reperibili in tutte le stazioni della metro dove sono distribuite gratuitamente. Esiste inoltre una grande varietà di apps per tablet e smartphone con cartine consultabili ovunque. Guida ai trasporti di Londra Londra metropolitane trasporto di 1,2 miliardi di passeggeri all'anno, esiste dal 1863 ed è gestito dalla TFL (Transport for London). La sua rete comprende i seguenti 11 linee: Linea Bakerloo: Harrow & Wealdstone ↔ Elephant & Castle Linea Central: West Ruislip ↔ Epping Linea Circle: Hammersmith ↔ Edgware Road Linea District: Richmond / Wimbledon / Ealing Broadway / Kensington (Olympia) / Edgware Road ↔ Upminster Linea Hammersmith & City: Hammersmith ↔ Barking Linea Jubilee: Stanmore ↔ Stratford Linea Metropolitan: Aldgate ↔ Uxbridge / Moor Park / Watford / Chesham / Amersham Linea Northern: Morden ↔ High Barnet / Mill Hill East / Edgware Linea Piccadilly: Cockfosters ↔ Heathrow Terminal 5 / Uxbridge Linea Victoria: Walthamstow Central ↔ Brixton Linea Waterloo & City: Waterloo ↔ Bank La metropolitana di Londra è divisa in 9 zone, la prima delle quali parte dal centro storico. La maggior parte delle attrazioni turistiche si trova nelle zone 1 e 2 e l'aeroporto di Heathrow è nella zona 6. Pertanto, quando si acquista un biglietto della metropolitana, è necessario conoscere le zone in cui si trovano le fermate di partenza e di arrivo. La metropolitana di Londra va dalle 5 del mattino alle 00 del mattino. Il servizio nel centro di Londra è attivo fino all'1 del mattino. Dal 19 agosto 2016, alcune linee offrono un servizio notturno e funzionano 24 ore su 24. Il servizio si chiama "Night Tube". La frequenza della metropolitana è piuttosto alta, non ci sono mai più di due o tre minuti di attesa tra due metropolitane sulla rete principale. Per prendere la metropolitana è indispensabile acquistare una tessera. Tutti i biglietti possono essere acquistati presso le biglietterie automatiche delle stazioni della metropolitana o in biglietteria. La Oyster Card è la tessera della metropolitana di Londra. Se si dispone di una carta di pagamento senza contatto, non è necessario acquistare un biglietto o una carta di viaggio. La vostra carta bancaria diventa la vostra carta di trasporto e funziona per autobus, metropolitana, tram, DLR, metropolitana di Londra, funivia di Londra e autobus fluviali!
