Whrend man bei der nchsten Generation von Visual Studio noch Wer von einem PC mit Windows 10 oder Windows 11 auf einen neuen Computer mit Windows 11 wechselt, kann mithilfe der integrierten App Windows-Sicherung in Zukunft seine Dateien direkt vom alten auf den neuen Unter Windows 11 wird die Funktion "Click To Do" mfnchst um die Mglichkeit erweitert, die Inhalte eines Bildes zu beschreiben. Dabei kommen lokale KI-Modelle zum Einsatz, eine Verbindung die Cloud ist damit nicht Wenn man Windows neu installiert, steht in den meisten Fllen zunchst eine kleine Update-Orgie auf dem Programm. Neben den aktuellen Updates fr das Betriebssystem selbst mssen noch die vorinstallierten Apps auf den neuesten Stand Microsoft hat ein sogenanntes "Out of band" Update fr Windows 11 Version 24H2 verffentlicht, um Probleme in Verbindung mit Azure Virtual Machines zu beheben. Wer von diesem Fehler nicht betroffen ist, kann es getrost Windows auf dem aktuellen Stand halten, ohne den Computer neu starten zu mssen ein Trunchen. Seit Anfang April ist das fr Windows 11 Realitt. Jetzt steht das Hotpatching auch auf ARM-basierten Gerten zur Der Patchday Juli 2025 bringt routinemig die neuesten Sicherheitsupdates fr Windows 10 und Windows 11. Fr die Version 24H2 legt das Patchday-Update zudem noch den Grundstein fr neue Funktionen, die in den kommenden Monaten Microsoft hat das dieshrige Funktionsupdate fr Windows 11 offiziell angekndigt. Die Bezeichnung ist dabei ebenso wenig berraschend wie der anvisierte Release-Termin. Die Version 25H2 von Windows 11 soll, so hat es Microsoft kommuniziert, in Im Sptsommer fhrt Microsoft ein neues Design fr den Bildschirm ein, den niemand sehen mchte. Bei einem Systemabsturz von Windows 11 erscheint knftig kein Blue Screen, sondern ein Black Screen. Das Krzel BSOD behlt Mit dem optionalen Juni-Update fr Windows 11 beginnt Microsoft mit der Umsetzung der angekndigten Anpassungen bei der Browserwahl. Diese sind notwendig, um den Vorgaben des Digital Markets Act zu entsprechen. Im Juli kommen die Windows 11 erhlt immer mehr Funktionen, die auf Knstlicher Intelligenz basieren. Auf den "Copilot+ PCs" mit integrierter Neural Processing Unit (NPU) laufen viele dieser Funktionen auf Basis lokaler Modelle, bentigen also keine Verbindung in Im Rahmen des Windows Insider Programms testet Microsoft zwei neue Funktionen fr Windows 11. Die Position der Hardware-Indikatoren fr Lautstrke oder Bildschirmhelligkeit lsst sich in Zukunft flexibel festlegen. Die KI-Suche Recall erhlt eine neue To easily manage and share content across all of your devices and the cloud, use Google's desktop sync client. Drive for desktop. If you edit, delete or move a file on the Cloud, the same change happens on your computer and devices, and vice versa. In this way, your files are always up to date and can be accessed from any device. You can use Drive for desktop to: Open files stored on the Cloud directly on your computer. Find and organize your files in your computers file system without using storage space. Sync folders from your computer to Google Drive. When you sync, your files download from the cloud and upload from your computers hard drive. After you sync, your computer's files match those in the cloud. Your files stay up to date and accessible, any change you make applies across devices. Save files and folders for offline use. This includes files from shared drives. Collaborate on Microsoft Office files in real time. If you use Outlook on Windows with a work or school account, send and save files with Microsoft Outlook. Important: Before you start, check that your operating system is compatible with Drive for desktop. Download Drive for desktop: DOWNLOAD FOR WINDOWS Open "GoogleDriveSetup.exe." Follow the on-screen instructions. Tip: If you use a work or school account, you might not be able to use Drive for desktop or your organization might have to install it for you. If you have questions, ask your administrator. On Drive for desktop, at the bottom right, in the system tray, you can find the Drive for desktop menu . Tip: To Show hidden icons, click the arrow. To make it easier to find Drive for desktop when it's closed, you can pin it. To add Drive to the Start menu: In your Start menu, right click Drive Pin to Start. To add Drive to the taskbar: In your Start menu, right click Drive Pin to Taskbar. Important: Before you start, check that your operating system is compatible with Drive for desktop. Download Drive for desktop: DOWNLOAD FOR MAC Open GoogleDrive.dmg. Follow the on-screen instructions. Tip: If you use a work or school account, you might not be able to use Drive for desktop. Your organization must install it for you. If you have questions, ask your administrator. On Drive for desktop, at the top right, in the menu bar, you can find the Drive for desktop menu . To make it easier to find Drive for desktop when it's closed, you can pin it. To add Drive to your Dock: In the Applications folder, drag the Drive app to the left side of the recently used apps separator line. Sign in to Drive for desktop Sync files and folders to Drive for Desktop Sync files and folders to Drive for Desktop. When you first open Drive for desktop, you receive a notification Google Drive would like to start syncing. Click OK. On your computer, open Drive for desktop. You can sync files from your computer to Google Drive and backup to Google Photos. On your computer, open Drive for desktop. Click Settings Preferences. On the left, click Folders from your computer. Select an option: Sync with Google Drive: Files you change in the synced folder reflect on Drive. Drive changes reflect on your computer. Synced folders shows under "Computers." Back up Google Photos: Only photos and videos upload. Photos or videos you delete in one place dont delete in another. Edits upload as new images. You can find your photos and videos from any device online or on the Google Photos mobile app. Use Drive for desktop with macOS Sync to Google Drive & Google Photos Important: If you only store photos and videos, we recommend you backup to Google Photos. If you store your files in photos and videos, they upload twice and use more of your Google storage. Network Attached Storage (NAS) only supports backups to Google Photos. Important: If you have multiple Apple Photos libraries, only the System Photo Library syncs to Google Photos. You can sync all Apple Photos libraries in Drive. If you sync an Apple Photos library with Drive, everything syncs. We do not recommend you make changes to these files from another computer or in the cloud as it can corrupt your library. Your System Photo Library is the only library that works with iCloud Photos, Shared Albums, and My Photo Stream. If you only have one photo library, then it's the System Photo Library. Otherwise, the first photo library that you create or open in Photos is your System Photo Library. When you download photos and videos from your iCloud and upload them to Google Photos, it temporarily uses your Hard drive space. Learn more about backing up photos & videos. Access your files when they're synced On your computer, click your name Google Drive . You can find several options based on your Drive usage: My Drive: Contains your own personal files and folders. Shared Drives: Contains files and folders that you share with you. Other Computers: Displays files synced from other computers connected to your Google Account. Double click the file you want to open. Files created in Google Docs, Sheets, Slides, or Forms open in your web browser. Other files, like Word docs or .pdf files, open in their default programs on your computer. Tip: If your Drive and "My Drive" folder is empty, you can find the "Shared Drives" or "Other Computers" views. Customize your Drive for desktop settings Improve your Drive for desktop experience with Advanced Settings. You can: Customize sync preferences. Enable or disable real-time presence with Microsoft Office. Customize Google Photos settings. Customize general settings, such as automatic launch, hotkeys, and proxy settings. Learn how to customize you Drive for desktop settings. Open files & folders offline Search for your Drive files To find your files in Drive, search in Drive for desktop. When you search in Drive for desktop, rather than in Windows Search or macOS Spotlight, it ensures that your search includes all files from the Drive streaming location. On your computer, open Drive for desktop. Click Search . Enter your search terms. Tip: You can use the same advanced searches as in Drive web. Open your file. If the file is on your computer, it opens with the associated application. Otherwise, it opens in Drive web. Tip: To open the search window you can also use the search hotkey combination. Work on MS Outlook & Office files Mirroring My Drive Mirroring and streaming are two ways to sync your files. Folders from your computer can only be mirrored. Shared drives and other computers can only be streamed. My Drive can either be mirrored or streamed. When Drive for desktop is installed, the My Drive folder is streamed. You can update your preferences and choose to mirror or stream My Drive after installation. Learn about streaming and mirroring options with Drive for desktop. Learn how to find and fix errors in Drive for desktop In Drive for desktop, under Activity, a Some errors occurred banner displays. To display the list of errors, you can either: Click the link in the banner. Click Settings Error list. Learn more about how to fix errors. Related resources SearchClear searchClose searchGoogle appsMain menu You can find and open your files from Google Drive on your computer with Drive for desktop. You can use Drive for desktop to keep your files in sync between the cloud and your computer. Syncing is the process of downloading files from the cloud and uploading files from your computers hard drive. After syncing, the files on your computer match the files in the cloud. If you edit, delete, or move a file in one location, the same change happens in the other location. That way, your files are always up to date and can be accessed from any device. On this page Install and openDrive for desktop Open files on your desktop Set up sync Install and open Drive for desktop To download Drive for desktop: DOWNLOAD FOR WINDOWS DOWNLOAD FOR MAC On your computer, open: GoogleDriveSetup.exe on Windows GoogleDrive.dmg on Mac Follow the on-screen instructions. Tip: You might not be able to use Drive for desktop, or your organization might install it for you. If you have questions, ask your administrator. To open Drive for desktop: You can find Drive for desktop Menu in a different place, depending on what computer you use: Windows: At the bottom right of your screen. Mac: At the top right of your screen. Open files on your desktop When you install Drive for desktop on your computer, it creates a drive in My Computer or a location in Finder named Google Drive. All of your Drive files appear here.Any new files or folders you create in Drive or Drive for desktop sync and appear on all your devices. Click Drive for desktop click your nameOpen Google Drive. In My Drive or Shared drives, double-click the file that you want to open. Files created by Google Docs, Sheets, Slides, or Forms open in your browser. Other files open in their regular applications on your computer. Set up sync You can manage how much local storage you use and where your content is located by configuring Drive to stream or mirror your files and folders. Health information on Google isn't personalized health advice and doesn't apply to everyone. Important: Health information on Google isn't medical advice. If you have a medical concern, make sure to contact a healthcare provider. If you think you may have a medical emergency, immediately call your doctor or your local emergency number. Report incorrect information If you find problems with the health information on Google, you can: Below the health information, select Feedback. To explain what information is wrong, follow the on-screen steps. Submit your feedback. We'll use your feedback to improve results in the future. Information Google stores about your health searches Post to the help community Get answers from community members Your Google storage is shared across Google Drive, Gmail, and Google Photos. When your account reaches its storage limit, you won't be able to upload or create files in Drive, send or receive emails in Gmail, or back up photos or videos to Google Photos. If you're over your storage quota for 2 years, we might delete your content across Gmail, Drive, and Photos. Learn more about Google storage policies. This article will help you learn how to manage your Google storage effectively. To manage your Google storage, follow these steps: Check how much storage you have You're not signed into a Google Account. To find out how much storage you have and how to manage it, log into your Google Account and reload this article. Sign into your Google Account If you're close to or over your storage limit, you can: Learn how to clear space Get more storage: Google One is a subscription that gives you more storage across Google Drive, Gmail, and Google Photos for your account. . When you subscribe to Google One, your total storage increases depending on the plan you choose. Get more storage with Google One Learn how to clear space You're not signed into a Google Account. To find out how much storage you have and how to manage it, log into your Google Account and reload this article. Sign into your Google Account Your Google storage is shared across Gmail, Google Photos, and Google Drive. However, other items like WhatsApp backups or Drive for Desktop syncing can also take up space. Messages and attachments, like items in your Spam and Trash folders, take up space. When your account reaches its storage limit: You cant send or receive messages. Messages sent to you return to the sender. Photos and videos backed up in Original quality take up space. After June 1, 2021, photos and videos backed up in High quality (now named Storage saver or Express quality) take up space. Learn more about Photos backup options. Photos and videos backed up in Storage saver quality or Express quality before June 1, 2021 don't use space. Most files in your My Drive take up space as they contain files and folders you upload or sync, such as .pdf files, images, or videos. Your space in My Drive also contains files you create, such as Google Docs, Sheets, Slides, and Forms. Items in your Trash also take up space. Learn how to empty your trash. If you use Drive for work or school, content in shared drives' trash also counts toward your organization's storage. Important: New files you create in Google Docs, Sheets, Slides, Drawings and Forms use up your Google storage space. Files that already exist don't count toward storage unless they're modified on or after June 1, 2021. Learn what items in Google Drive dont use storage space Files in "Shared with me" and shared drivings don't use space. These files only take up space in the owner's Google Drive. Google Sites. Google files you created before June 1, 2021 dont count against your storage unless you edit them after that date. When your account reaches its storage limit: You cant sync or upload new files. You cant create new files in Google Docs, Sheets, Slides, Drawings or Forms. Until you reduce the amount of storage you use, neither you nor anyone else can edit or copy your affected files. Syncs stop between your computer's Google Drive folder and My Drive. Items in Google Drive for desktop take up a different amount of space than the same items in drive.google.com. Items in your Trash take up space in Google Drive, but aren't synced to your computer. Learn how to empty your trash. Shared items take up space on your computer, but not Google Drive. Items that are in multiple folders sync to all folders on your computer and take up more space. If you only sync some folders to your computer, the storage on your computer is less than what is shown on drive.google.com. Your computer might show a different file size due to Mac or PC requirements than in drive.google.com. Files other than Gmail, Drive, and Photos can still use up your Google storage space. For example, backups of your WhatsApp messages and media. To turn off backups of your WhatsApp messages: On your device, open WhatsApp. Tap Never. You can also delete your WhatsApp backups through the Google Drive app. Important: Once deleted, you can't recover WhatsApp backups from Drive. On your device, open the Google Drive app. Make sure you have signed in to the correct google account. At the top left, tap Menu Backups. Find your WhatsApp backup file. Tap Menu Delete backup. Learn how storage policies vary by plan Google Workspace storage is shared between Google Drive, Gmail, and Google Photos.Learn how storage use is calculated. The amount of storage for each user depends on your Google Workspace edition. Most Google Workspace editions have pooled storage. Pooled storage is indicated in the following tables as total storage or a storage amount times the number of End User licenses. Pooled storage is granted in stages: At the time of purchase, you get part of your storage. Your storage increases to your total storage limit after you make a \$30 USD payment for your subscription. You may make a manual payment or pay early to be granted all storage faster. It can take up to 72 hours after a payment for your storage to increase. Google Workspace Edition or Subscription Storage Limits G Suite Basic No longer available for new customers 30 GB per End User G Suite Business G Suite Business - Archived Users No longer available for new customers Unlimited storage 1 TB per Archived User Google Workspace Business Starter 30 GB timesthe number of End Users, including Archived Users Google Workspace Business Standard 2 TB times the number of End Users, including Archived Users Google Workspace Business Plus 5 TB times the number of End Users, including Archived Users Google Workspace Enterprise Starter 1 TB times the number of End Users Google Workspace Enterprise Standard Google Workspace Enterprise Plus 5 TB times the number of End Users, including Archived Users For customers with 5 or more End Users, more storage may be available at Google's discretion upon reasonable request.Learn how to request storage.
