

I'm not a robot

The Classroom app can be installed on Android and iOS mobile devices. However, it's not available for Windows mobile devices currently. If you use a Chrome device, such as a Chromebook, you don't need to install the app separately because support for Chrome apps is being phased out soon. To get the latest version of the Classroom app, your device must have 5.0 Lollipop or later for Android and iOS 11 or later.To download the Classroom app on an Android device, go to Play Store, find and install the Google Classroom app. For iPhone or iPad users, visit App Store, and search for the Google Classroom app. If you're having trouble installing the app on a school-owned device, contact your administrator for assistance.Additionally, you'll need Google Docs, Sheets, and Slides to use all the features of the Classroom app. The Google Meet app is also recommended for creating or joining class video meetings; it can be downloaded from Play Store (Android) or App Store (iOS).School account holders receive their email address and password from an accredited school using Google Workspace for Education. Personal Google Account users create their own accounts outside a school setting, such as tutoring centers or homeschooling environments. These accounts have different features and limitations compared to school accounts.Google Workspace accounts are used in large organizations with Workspace Basic, Business, Education Plus, or Nonprofits editions. Your organization's admin creates and manages these accounts, assigning email addresses and passwords.The article concludes by explaining the storage limits for Google Workspace editions and subscriptions. It notes that Classroom works seamlessly with Google Drive, Docs, and other Workspace services, sharing storage between these applications.Including archived users, Google Workspace Enterprise Starter offers 1 TB multiplied by the number of users. Google Workspace Enterprise Standard provides 5 TB multiplied by the number of users. For customers with 5 or more users, additional storage may be available at Google's decision upon proper request. Learn how to ask for storage. Google Workspace for Education includes Google Workspace for Education Fundamentals, which offers 100 TB total for all users. Google Workspace for Education Standard adds 100 GB multiplied by the number of user licenses. Google Workspace for Education Plus adds 20 GB multiplied by the number of user licenses. For more details about storage for Google Workspace for Education, visit Understand storage availability and usage. Google Workspace Essentials editions exclude Gmail. Google Workspace Essentials Starter offers 15 GB per user. Google Workspace Essentials No longer available for new customers offers 100 GB multiplied by the number of users, up to a maximum of 2 TB. Google Workspace Enterprise Essentials offers 1 TB multiplied by the number of users. Google Workspace Enterprise Essentials Plus offers 5 TB multiplied by the number of users. Google Workspace Frontline editions include Starter, Standard, and Plus. Google Workspace Frontline Plus offers 5 GB per user. This storage limit applies to all users, even if the customer bought another Google Workspace offering with different storage limits. Google Workspace for Nonprofits offers 100 TB for all users. You can increase your Drive storage limit. For details, visit Options for adding Drive storage. Related topics: Post to the help community to get answers from members. Use Classroom in your school to simplify assignments, improve collaboration, and enhance communication. Classroom is available on the web or via mobile app. Use Classroom with existing tools like Gmail, Google Docs, and Google Calendar. What can you do with Classroom?
