The Plot released on December 14, 2018, the film focuses on the life of Miles Morales, a teenager who gains extraordinary powers after being bitten by a modified spider. Miles soon learns his powers when he discovers the secret lab of the notorious criminal known as Wilson Fisk. Turns out Fisk had made a particle accelerator through which he could travel to parallel universes and meet his dead wife and son. Suddenly, the Green Goblin appears and tries to kill Miles who is rescued by the real Spider-Man only in time. However, during the fight, the particle accelerator malfunctions and ends up killing Spider-Man. In addition, an older version of Spider-Man appears in its original form, also known as Peter Parker. Peter reluctantly decides to form Miles only because he also wants to return to his original universe. Meanwhile, another universally lost individual named Gwanda - Mils' high school crush - appears and takes the duo to the home of May Parker, who repairs and takes care of several other Spider-Men. Peter unsuccessfully trains Miles who eventually retires to his uncle Aaron's house. Surprisingly enough, Aaron turns out to be a part of Fisk's gang like him, along with Doctor Octopus, Scorpion and Tombstone chase Miles back to the May apartment where the Spider-Men prepare for battle. Miles is held back by the other because of his lack of experience, but in the end he manages to escape after receiving words of praise from his father. Miles joins the fight on one side, while Fisk shows up on the other. A battle ensues, resulting in Fisk's defeat. The film ends with Miles finally accepting his new responsibility as a hero, while the other genetically modified characters return to their respective universes.
