Andpon/ Pixabay during the fifteenth century, European traders began to look for a new route from The Sia. These traders were interested in trading and buying goods such as seed, spices and precious metals from The Industry and The Nadia. The existing routes were treacherous and dangerous, so traders believed that if they could find a safer route over the water, they could import more items from the east. Along the way, they made some discoveries that changed the world as they knew it. Discovering the treasures of the east at the endth of the 13th century and beginning of the 14th century, the Italian Explorer Marco Polo made extensive trips to the east, including what isth now China and China. Throughout his travels, he learned about the wealth of exotic goods that this world had to offer, from sea and spices to new foods andth. Polo wrote extensively about his travels and what he discovered during his years abroad. The book of Polo travels has become an inspiration for the merchants and explorers of the generations to come. Christopher Columbus allegedly took a copy of that book with him on his journey that would eventually take him toth. Problems along existing trade routes the routes that traders used before exploring the seas were fraught with danger. Land routes involved land that was unimpeachable and dangerous, and traders could not trust that they would always be safe. The Ottoman Turks controlled much of the land routes to the east, and they initially charged exorbitant taxes for merchants to pass through. Eventually, they blocked access completely. Venetians controlled much of the mediterranean routes, and they made them travel in this difficult area. A easier way to the east as time went by, traders and traders believed they could find an easier route to the east that could save time, Turkish-controlled lands and ensure security. Portuguese explorers began to navigate around the coast of Africa looks for a better way for SIA. By 1498, Vasco de Gama made his way to India in India Navigating around the cable of good hopes and northeast of there. The Christian Italian explorer Colombo was fascinated by a theory that one could navigate west and find a path to India and Sia. He sought sponsors to finance his journey, and Spanish monarchs King Fertian and Queen Isabel were willing to finance his attempts. He did not want to get to Sia, but Columbus and his crew made another worldwide discovery. The new Christian world Colombo sailed toward the west with a crew and three ships in August 1492. He landed for the first time in the Bahamas a few weeks later and thought he had landed in Japan. He explored to Cuba and Haiti, convinced that he had found to SIA. He brought back many strange things, new delights to nothing, such as coconut, potatoes, and sweet corn, for example, but he and his crew did not find gold or silver. Subsequent travel continued to convince Columbus that he had found his way to SIA, but other explorers realized that what Columbus had happened on top was in fact oneth newth newth. The territorial disputes and a new name after Columbus traveled to the new world and claimed it to Spain, the Portuguese angry and stated that Columbus had discovered territory that belonged to his nation. They claimed the Vatican, and while Pope Alexander II allied himself to Spain, the two countries signed the Tordesillas Treaty, which delimited the limits of the two impetus. Meanwhile, another Italian explorer, Amerigo Vespucci claimed that he landed in the new world before Columbus, which led to the German Cartoon Martin Waldseem Ajfler giving the new world a name: Amenia. Continued exploitation after Columbus, more explorers went to the AMERIA under the Spanish flag. Juan Ponce de Le Ajflerth traveled through what is now flat, but other explorers went further. Vasco n YORK DE Balboa made his way to the Pacific Oceanth through the Panama, while Ferdinand Magellan sailed around the coast of Southth South became the first explorer to circumnavigate the globe.
