Student Journal

Big ideas math integrated mathematics 1 student journal answer key.

We have officially entered a year of national, state and local elections. We will choose the people who will have enormous power over health policy, and the pharmacy has and will continue to play a significant role in the increasingly important political arena. Poicke. © Pharmacists continue to cooperate with other healthcare providers and suppliers, we know that the pharmacy is already playing a key role in the future of healthcare. We also know that the future of pharmacies remains 226; In the hands of pharmacy students. While the pharmacy continues to evolve in the context of changing the health landscape, there are incredible opportunities and significant challenges ahead. To face these challenges, we need to create a culture in which the pharmacist becomes the pharmacist's lawyer. Not only is a pharmacist an armed lawyer of practical knowledge and competence to advise patients to take their medication correctly, but this individual also understands the challenges of industry-128; You can communicate them to their elected officials. One of the best ways for students to engage and become supporters of the pharmacist is through the National Association of Chain Pharmaceutical Houses (NACDS) RxIMPACT program. The aim of RxIMPACT is to involve the supporters of the pharmacy to participate more in public policy on behalf of the pharmacy. NACDS has established this popular support program in 2009, and the initiative has grown exponentially, with a series of components designed to anticipate pro-patient, pro-pharmaceutical issues. At the beginning of this year, NACDS announced its voting programme 2016 RxIMPACT, which is the voting arm of our initiative. This program is intended to help the supporters of the pharmacist to engage even more fully in the electoral process; What? In order to demonstrate activism members of the NACDS. The program will help the supporters of the pharmacist to learn more about volunteering on register to vote and contribute to obtaining the vote on election day. NACDS annual RxIMPACT Day on Capitol Hill brings together pharmaceutical students with drug managers, leaders of state pharmaceutical associations, white-coated pharmacists and others to promote pro-pharmaceutical legislation on Capitol Hill. The popularity of this program among students is increasing. This year RxIMPACT Day on Capitol Hill will take place on the 16th March 2016, and will include more than fifty students from 44 schools and pharmacy colleges at national level, with an increase of the 5% compared to the schools represented in 2015. Overall, more than 450 congressional meetings are planned during this annual event of two days of advocacy. During the event, students will have the opportunity to participate in the NACDS RxIMPACT Academy to train to become part of the next generation of leaders and supporters of pharmacies and to bring home the pro-patient and pro-pharmacy message during congressional meetings. The academy offers students pharmacists half a day of training with experienced supporters one day before going up the hill. Students who are unable to attend the event in Washington and those seeking training throughout the year will find other important resources within the NACDS RxIMPACT programme. In addition, the RxIMPACT training programme provides basic training for pharmacy schools. This year, the training will include challenges to inspire voting activities on the NACDS RxIMPACT campuses, such as voter registration and other opportunities to encourage others to vote. Social media is also an incredibly important way to share your message about the pharmacy. We invite students to join NACDS RxIMPACT Pharmacy Advocates on LinkedIn. This exclusive online network of supporters of the pharmacy has access to the latest information on policy issues affecting the pharmacy, as well as the internal scoop on the effects of defence in politics. Action is needed when critical issues arise in Congress, administration or states, and NACDS will contact this group to help get pro-pharmaceutical, pro-patient messages to legislators. Students are naturally motivated and able to make a difference. That energy is contagious. It motivates and inspires others to be involved, including those who have been involved in the profession of pharmacist for decades. This is a great time to join the ranks of the American pharmaceutical community. We look forward to seeing you in your white coat next month, and for many years to come, in a future NACDS RxIMPACT Day on the Capitol, because © together we will position the pharmacy for the future. Steven C. Anderson, IOM, CAE, is the managing director and president of the National Association of Chain Drug Stores. Story.
