The Chasm itself is also older than that—the naturally formed sandstone ages 500 million years. Explore the chasm on nature trails with panoramic views and falls during the day or on special lanterns tour offered some summer nights. Visitors can raft or hose in the chasm for the perfect adventure. The attraction also offers camping, horse riding, cycling on 15 miles of trails, a restaurant, souvenir shop, and more. Thinking about visiting Ausable Chasm New York, the Adirondacks Grand Canyon? Find out how to get there and the best things to do at the Auable Chasm NY. During our exploration of the Adirondack region of New York, one of the places we were most excited to visit was the epic Ausable Chasm in Au Sable NY. This natural attraction nicknamed the “Grandof Adirondacksâ € is a must for those who explore the ultimate region of the ultimate York. But Ausable Chasm is not only to look up. This adventure gorge is full of incredible landscapes, waterfalls, hiking trails, and much more. There are a lot of things to do in Ausable Chasm, especially for those who love a little adrenaline! What is the Auable Chasm NY? Ausable Chasm New York is nicknamed “the Grand Canyon of Adirondacks”. But do not confuse it with Letchworth State Park, which was given to the moniker “the Grand Canyon of the East”. While both at Upstate New York and both are amazing places to visit, they are very different experiences. Ausable Chasm was first opened in 1870. This makes Ausable Chasm the oldest natural attraction in continuous operation in America! The Chasm Ausable is a long and narrow sandstone gorge that extends for two miles (3.2 km). The throat was carved from the sandstone by a mixture of the power of the Ausable river and the teorized teorized tectonic activity in the last 15,000 years. The accessibility and beauty of Ausable Chasm have led to become one of the most popular tourist attractions in the Adirondacks. Ausable Chasm is a mix of adventure trails, hiking trails, waterfalls, fossils and river racing. And this great variety of activities is what has attracted us to explore and see the area around Ausable Chasm NY. How to get to Ausable Chasm New York Ausable Chasm is in Au Sable NY County just outside the city of Keeseville, New York which is in the Adirondack region of Upstate New York. From New York City, it’s a five-hour trip north on I-87. From Canada, Ausable Chasm is an easy two-hour journey from Montreal. Although it is a seven-hour journey from Toronto, we think it is worth it, especially as part of a road trip through the Adirondacks. What are the best things to do in Ausable Chasm? Ausable Chasm is not just a pony of a cricket. Many visitors driving Au Sable NY may think they have seen the chasm when they stop at the parking lot near the Ausable Chasm bridge. From there it is easy to walk to the Ausable Chasm bridge and peer down to Rainbow Falls. This point allows you to see only the first hundred feet of this 2.2-mile gorge. However, unless you enter through the Ausable Chasm Visitors Center and climb down to Ausable Chasm, you will never know how impressive it is. Ausable Chasm Visitors Center A visit to the Ausable Chasm Visitors Center is a must for those who come here. Not only the Visitor Centre where the entrance tickets and adventure passes are collected, but it is also where you can get to know both the geological and tourist history of Ausable Chasm. It was really nice to visit the Ausable Chasm museum and talk to Sean, the local historian and geology expert. Sean has been with Ausable Chasm for 10 years and knows that apparently everything there is to know about the chasm and its history. There is also a scale model of the Ausable Chasm throatat the entrance. It’s a great view to help you help you What you will experience when you go into the throat. He Ausable Chasm visitors center also has a souvenir shop, bathrooms (because there are no bathrooms on the trails) and a restaurant. Ausable Chasm Basic entry paths to Ausable Chasm gives guests access to Ausable Chasm trails. This series of hiking trails and walking are suitable for all ages. Far from being a simple walk, the paths of the Ausable Chasm combine a sweet forest walk along the throat circle with energy excursions over the craggy rocks through the dry sections of the Chasm where the water does no longer flow. There are no security guides in many of the sections, but the paths are quite wide that it is easy to hold back from the boss. Surely you don’t want to fall into these waters. Trail of the internal Sanctum The internal Sanctem path is the first of the Ausable Chasm excursions when accessing the throat from the visitor center. The internal Sanctum trail has sections that cross the throat along wooden suspension bridges and wire. Our 4 year old child had his heart that ran like him was the first to cross this bridge in Ausable Chasm. Even if to be honest, I think I’m more nervous than him. After doing it, he talked to him all about him, just like he was when he went to Zip-Lining in the Philippines and Sandboarding in per there. Pro-Tip: parts of the internal Sanctum path to the Ausable Chasm require guides and helmets for the initial portion. The Big Dry Chasm and the Little Dry Chasm hiking trails are preferred by the premises and the staff of the Autousable Chasm. These excursions have led us through sections wretched and on large boulders on throat areas. These were areas that the river passed through, but was redirected over the years. These excursions are fun and colorful. They also have sections where the temperature drops a little. Perfect for hot days Muggy! Rim Walk Rim Walk is the simplest of all Ausable Chasm trails. This panoramic walk has led us to different lookouts along the edge of the Ausable throat. In addition to the rolling hills to reach the points of view, the path was quite flat and easy to walk. This is the only path that would be suitable for the strollers (even if, no strollers umbrellas). If you travel with young children, we recommend using a backpack holder as access to neglecting require you to descend a few stairs. The points of view offer a fresh perspective that differs from the path of the internal Sanctum. There is also an entry point to Rim Trail at the end of the Ausable Chasm bridge. Although it is still necessary to get tickets from the Ausable Chasm Visitors Center. Ausable Chasm Adventure Trail For visitors of over 8 years (which unfortunately did not include us with our 4 and 7 years) it is possible to make the Ausable Chasm Adventure Trail. This set of activities rappelling, tight-rope bridges, and walks along the led stony near the beautiful rainbow waterfalls. The kids watched the brave Adventure Trail group with envy as we do. our helmets for the beginning section of the Ausable Trail. Usable river tube We visited the Chasm Ausable during a series of rainstorms, so unfortunately, the river was running high and the Ausable Chasm Tubing was not on offer. But, for those interested, this Ausable river activity is available to all visitors over 442 tall (122 cm). Vests and tubes are provided, but visitors must bring their own water shoes or sandals with a back strap to participate. Ausable Chasm Rafting The rafting or riverboating tour is really the main activity for any visitor to Ausable Chasm. Participants must be 30 pounds or more, so D was clear for this activity. And since this was his first white water rafting, he approached with his normal “Do This!” mentality. Ironically, C’s rafting was at the “other” Grand Canyon in New York, Letchworth State Park. Pro-tip: There are no lockers inside Ausable Chasm. Objects placed on the raft floor get wet. Then bring a plastic bag or use a dry waterproof bag. The Ausable Chasm raft tour starts at the end of the inside of Table Rock. The rafting tour at Ausable Chasm took us through the Grande Flume, a narrow but deep corridor. You can almost reach out and touch the towering rocky walls on both sides of the boat while we crashed on a small series of white water rapids. The rafting tours of Ausable Chasm actually began WAY back in 1873, just 3 years after the attraction began to offer tours to the public. Because of this rich history, an Ausable Chasm rafting tour is really a part of the whole experience here. Ausable Chasm Accommodation There are a number of hotels and campsites near Ausable Chasm. Whether you’re including Ausable Chasm as part of a larger Adirondacks tour or if it’s at the center of your trip, you won’t have options. Ausable Chasm Campground This is one of the most popular places for Ausable Chasm campsite. Ausable Chasm Campground is just around the corner from Ausable Chasm. There are discounts for Ausable Chasm attractions offered to those staying at Ausable Campsite, so there are definite incentives to stay here. The Ausable Chasm campsite has places for tent camping, trailers, campers, and there are also cabins. We were on a long trip, so we opted for cabins when we were at Ausable Chasm camp. The beds were comfortable and the cabins were perfect for a family of 4 people. Campsite Ausable also has a swimming pool to cool off after a hot day of adventure. Ausable Chasm Hotels For those who are not looking to roar after a day of climbing through Ausable Chasm, there are some great hotels near Ausable Chasm that will allow you to sleep in comfort. Be the Best Western That La Quinta hotels are located 14 km from Ausable Chasm in the picturesque town of Plattsburgh. While in Plattsburgh make sure to check the beautiful beach and the La Beautiful displays of military aircraft. Our Ausable Chasm video Want to see even more of what’s amazing about Ausable Chasm NY? Check out our YouTube video showing everything we’ve done. Be sure to press the “Like” and “Sign up” buttons to watch more videos from around the world. Other Things to Do Near Ausable Abyss If you’re spending a couple of days in Au Sable NY, there are some things nearby that are definitely worth visiting. Here are some of the most popular things to do near Ausable Chasm: Visit the North Star Underground Railroad Museum â the underground railway museum is located right between Ausable Chasm and Ausable Chasm Campground. It is easily reachable on foot from any site, but the Museum also has a parking lot if you decide to drive us. Explore the fascinating story of those who worked to free the slaves of the South.Feel the Mist off of Alice Falls “If you haven’t had enough waterfalls at Ausable Chasm, a short trip to Alice Falls is a great way to get something more. Make sure you get here before 5:00 when the gates close.Choose a drink at Ausable Brewing Company “Whether you’re looking for cold beers or a great lunch, Ausable Brewing Company is a great place to eat near Ausable Chasm. To make things even better, the picturesque red building where the brewery is located is a perfect photo!Drive an hour and a half to North Creek NY to experience Adirondack Rail Biking with Revolution Rail Co. Take a look at the Olympic sites in Lake Placid NY, just an hour from Ausable Chasm. Let’s hope our article gave you some value. If you have, let us know in the comments below. Share with us your Ausable Chasm experiences. Or you can go to our Facebook page and share a photo with us. We’d love you to share your trip with us. Disclosure: We were guests of Ausable Chasm during our visit. As always, our opinions remain our own.
