Thank you for your great service and advice in writing a journal article Your advice in my research project helped me a lot in shaping my ideas Working with M&G Research Consultants was very crucial for my PhD Thesis. They helped me to move forward methodically and to use meaningful statistics for my research. Video of Mines and manufacturers rely on CSIR testing for safe, quality products The CSIR ensures that products in the mining industry and beyond are safe and of high quality. Our rope testing laboratory, self-contained self-rescuer testing laboratory and mechanical testing laboratory are national assets in terms of the facilities and expertise we have available to support South African businesses. Video of A new generation of ocean experts to tackle climate change Video of Explore the future of industrial work at the CSIR Learning Factory The CSIRs Learning Factory is a space where South Africas current and future workforce can explore technologies of the fourth industrial revolution (4IR) hands-on. Video of Cofimvaba learners log green scores for CSIR-designed science centre South Africas first net-zero science centre, designed by CSIR research architects, is now an ongoing citizen science experiment in green building practices and a model for future buildings. Learners from two nearby high schools in Cofimvaba, Eastern Cape, use tablets to score the buildings thermal performance, while its water and energy efficiency are monitored in a digital twin building. Video of President Cyril Ramaphosa delivers concluding remarks to the CSIR stakeholders President Cyril Ramaphosa conducts a tour of the facilities at the Council for Scientific and Industrial Research (CSIR), an entity of the Department of Science, Technology and Innovation. Video by South African Government Video of Scientists called in as wind disrupts fruit exports in Cape Town Video of A farm-to-fork app for emerging poultry farmers Limpopo poultry farmers are using the ILIMA app to monitor their chickens feeding habits, vaccinations, thermal comfort, mortalities and sales. The app was developed by CSIR researchers alongside small-scale farmers to ensure that it has all the features they need to digitise farm management and to connect them securely to their suppliers and markets. Video of Reading for meaning in Sepedi, isiZulu, English and Afrikaans Reading for meaning in Sepedi, isiZulu, English and Afrikaans: We are piloting the Ngiyaqonda! literacy app to help South African children read for meaning in their home language. Video of Satellite ocean colour maps warn abalone farmers of harmful algae Scientists from the Council for Scientific and Industrial Research (CSIR) developed ocean colour and temperature data from satellites that is easy to access as an online tool. The work forms part of the countrys ocean economy plan to boost aquaculture jobs. Video of Scientific support for South African cannabis products Local cannabis cosmetic business Green House Village is one of 23 SMMEs that the CSIR has supported with the development of high-quality, regulatory-compliant, safe, efficacious and affordable cannabis products for local and international markets. We are a flexibly structured consultancy that brings together carefully selected research professionals, on a project to project basis, to deliver quality research output You may be seeking external expertise to run your research project, or just extra hands and minds to help manage parts of it we provide support across the entire research process Our services are tailored to aid efficiency and to support a quality assured research process, leading to valid research outputs upon which to base business decisions Our services are available to private and public organizations, non-profit organizations, research agencies, and individuals pursuing academic research Market AnalysisCustomer SegmentationUsage & Attitudes SurveysBrand EvaluationProduct & Concept TestingPricing ResearchPackaging ResearchCustomer Satisfaction MeasurementEmployee SurveysPublic Perception SurveysImpact EvaluationsAcademic Research Projects Financial ServicesTelecommunicationsBroadcast & Print MediaFood & BeveragesPersonal CareTransportationSector Training AuthoritiesSpecial Economic ZonesNGOs/NPOsAcademic Institutions We are not the traditional agency full of employees with guaranteed salaries. Rather, our consultants only get paid for doing a good job. And they do! Promise Gumbo (Founder & Principal Consultant) View real-time feedback from our clients The framework created to find answers to a specified research problem, spelling out the research objectives and hypotheses. It identifies the appropriate study design and the methods for sampling, data collection and data analysis. The process of using scientific methods to collect information from relevant sources in order to find answers to the research problem, test hypotheses and evaluate the outcomes. This can be done using secondary or primary methods. The process of inspecting, evaluating and modelling data to discover useful information and aid decision making. Data analysis has multiple facets and approaches, primarily thematic or statistical, and encompasses diverse tools. The research output is presented precisely, in a manner that addresses the initial research problem and objectives. A research report presents and interprets the findings, draws conclusions and makes recommendations. Supporting our core team is a group of more than 12 dedicated back checkers, also regionally based. Their presence enhances our ability to verify data, maintain quality standards, and resolve issues in real time. This distributed structure enables us to: collect high-quality, context-sensitive data; monitor and manage fieldwork more effectively; respond to regional dynamics with agility; and uphold rigorous data accuracy through ongoing localverification. Research 24/7 is a market research company specializing in CATI telephonic surveys as well as face to face quantitative research.Research 24/7 is a market research company specializing in CATI telephonic surveys as well as face to face quantitative research.
