Best town hall 9 trophy base

Haha, popular demand man. (I am a TH9 BTW), I was everywhere from 200- trophies to 2,700. It depends on which army is used and how often it sticks. If you use a cheap army then you can hit the dead bases with the collectors complete at the 1500-1600 trophy range, I use Arcieri / Barbs.â, you can also bam (barbarians, archers, servants) and hit basements in 2,400 trophies, just get the bonus championship + any other thing you get, just go for spreading out the basics and get 50% using a heavy army you can or hit the bases for the lower maxed 200 trophies, but you'll be there Nailed by Hardcore farmers down there. A larger range for a heavy army is 1800-2000, you will find a lot of gems here that have a th9-10 but low level defenses and a lot of booty, even if it's still difficult to get. (Heavy armies can be pigs, or giants / healers or gaint / wizzards) â, my personal record is using archers / barbs in the 1500 range and hitting dead bases / collectors ... sometimes I had to spend up to 10 minutes to A base, but it is an economic and fast army to train if u have an hour or two to collide it is possible to get an easy 1.5 mil of each. Each base should give you 200K of each (complete collectors) Â, I got 1.3 mil gold in 1 day do Thisa: P good luck eun clash on! P.S. Here are some photos showing what a complete collector is how gold is a bit more difficult, but still remarkable Elixir is easier the best defense is a good attack. From time to time, our players create more complicated bases. They are eager to create a hall of stronghold for their wars. While we turn around some war clans, we have collected the most exceptional basics of war. Some of these bases are tested through friendly challenges and some are through consecutive wars. Of course, these are all 3-star bases. Feel free to grab some and use it in your clan. As mentioned at the beginning, if you have a ring base layout, you should abandon this Â € â,~ "is no longer updated and easy to beat. Use one of these fresh base layouts; especially the first layout of Agricultural Base I need it well when agricultural Dark Elixir. In this clash of supercell summer update clan has a ton of new content such as troops Â € â,~ "headhunter, super super troops: hell dragon and super witch, new levels of Update, Â, scenarios, etc. To know all the notes of the new update's patch here is the link. Clash of Clans New Summer Update Finished Gamer Update only for Fun SC makes your first trip to Masters & Champs Tuff! Especially when you are pressing hard with T / H levels at a lower level. You have to choose your goals with extreme caution! Avoid everything that has even a remote possibility of not getting a star. But rested, once you have strength in troops / spells and heroes that come to higher levels, you will fight stronger to try to stay under Masters & Champs than you did there 1st time! I tried to push for halfway samples through th10. It wasn't very pleasant. I had to attach every 20 minutes for a whole week because I went coupled only with TH11 or TH12. I became nine trophies every attack if lucky. Don't try to push as high if your base is not developed, and it will be more difficult to get resources. It is reduced to the Matchmaking and the decisive trophy. Matchmaking is agreed on some factors: trophies, championship and municipality level. Matchmaking is simple. The game tries to find yourself with the same town hall with an approximate quantity of trophies in the same league. If your alloy is too low or too high if you are pressing the trophy, then the game gives you what it surrounds. This is why so many high citizens are in lower championships due to agriculture. The quantity of trophies you can win, or lose, is through this matchmaking. Leaver the trophies you can win, Â € â,~ Â "KEAKEKERA Â € â,~ the base is, but lose more trophies if you fail the attack. Higher is the trophy, Â € â,~ â "strongerÂ € â,~ the base is, but lose less trophies if you fail. This is why you are losing 53 trophies in a defense. A higher municipality, says Town Hall 10, sees a potential of 53 trophies to win and see youÂ € re Hall 8 grinding their way to the master of the league. They see it as a golden opportunity to delete some of the jobs you made and make it better for yourself. I'm never the trophy pushed towards the upper championships because the bases become more demanding more at the top go. When they are breeding and leave in the Gold League, sometimes I find a lower town hall that pushes into a higher alloy with 40+ trophies that you can win. Booty or not, I take them down and gate their progress to wake up. How it's how. You may want to get used to dropping a lot of trophies in defense if you're pushing. Something went wrong. Wait a moment and try again. Hey guys. If you haven't read the rules, please read them here. For this week, we will send the best base of the Town Hall Trophy 9. The winner will receive Reddit Gold! Good luck! Page 2 11 Comments Comments
