Ratings and ReviewsRating: 4.6/5 based on 890K+ reviews(\*) is required 2 ★ It's fun game i like but there is a thing that's ruining everything . The money i need to play is bigger than the money i won by playing levels or harvest . I run out of money every time i try to play . I purchased some money but still run out in just 2 levels and got stuck again . I think it's a wonderful game if i don't need money to enter levels . I got bored and gonna delete it from my phone.5 ★ Fun To Play! Its fun trying to build your own farmland. Great mini challenges and nice rewards along the way but the rewards are not enough value against the challenges. Yes it has in app purchases but still it should offer balanced rewards to encourage continued play. I have changed my Phone and no longer seem to have access to my existing game account, can you assist me please? Problem solved, thank you so much for the support services getting my game updated and restored.5 ★ Very nice game but have not been able to play for almost two weeks now..its not loading and every time you guys add new features it gives this problem for loading but this time its just not .i sent emails and got response but it remains the same... Why is the game not loading and all my opportunities are now not valid as i cant finish up to win and it takes away alot of money to continie when you loose just for one card.1 ★ The game starts out fun and not too hard, but quickly becomes almost impossible to win without paying for credits. If you choose not to pay for credits or powerups so you can play more, you have to wait for your hourly harvest, which is not nearly as much as it should be. It will only give you enough to play a round or two at a time, and even if you just collect your harvest and save your credits up to play longer, it is still gone in no time. It takes too many levels to get a new crop, so it will take you forever, especially if you lose and have to wait for new harvests. Oh, and if you win a level, like others have said in their reviews, you don't get much of a reward. You barely get more than you paid for the level. I would say skip this one unless you like paying to win.1 ★ This game can be fun if the person who created it wasn't so money hungry. When you purchase coins or o boosters it's almost impossible to win. Do not purchase coins and bottom line the greed sucked the fun right out the game. Fun but worse game ever I wish I could Give this game zero stars.4 ★ I've been playing this game for years now pretty straightforward solitaire game but has cool side missions and you get to pet the dog and stuff so it's kind of cool. UPDATE 6/2/21 Sadly I think I have reached the max I can go. The levels cost so much as you climb higher and higher and you barely make enough to cover it. Then they put in these levels that cost more but offer more rewards, ha! Good luck beating those levels and if you need to use a wild card or extra cards at the end that'll put3 ★ It was fun at first but it's definitely rigged so you can't accumulate any coins without spending real money. Also, the new thing where you can't get rid of the mirroring cards is ridiculous. I bought the power-ups 4 times and couldn't win. I don't mind a challenge but the mirror cards make the game useless to play. If there's no way to win the game without using 150,000 credits on one board then what's the point of playing?3 ★ Love the game lots of fun. I would of rated it 5 stars but the amount of coins it cost to pay especially at the higher levels is way to much. So basically I only get to play 1 game until all my coins are gone.. You can purchase coins from the store but who has a bunch of extra money. I have made A few purchases, but you blow through that by the 5th round it costs over 10000 coins per game.5 ★ Great game i would like to see cheaper card sells. It dont pay off enough to cover the game to play long. I am not going to keep paying a 1.99 to 6.99 just to finish a good game. 2 times it did not give me my points on buying cards, a few times it did not give me winning points. 2021 wd are all tired3 ★ The game itself isn't bad. The prices of the rounds, the wildcards, and the 5 extra cards is a kind of high. Even though the payoff rises as you play, if you don't have the 10 minute discount, you spend almost as much as you win just to keep playing. I definitely don't like Piggy. I will never buy that. The damn thing would be empty if I didn't play. I'm not paying for something that wouldn't exist if I didn't play. I don't like the frog or the spider either.4 ★ The game is pretty fun, but like most card games can be tricky since a lot of left up to change. I like that the are ways to build up the coins and if you play consistently, you can keep leveling up.1 ★ Game is fun until you have to start paying... I don't mind a couple of bucks a week or so but the cost to play each game becomes prohibitive quickly, requiring purchases to continue. Removing the fun factor1 ★ great game. keep up the good work Update. Still a great game but I never got my bonus of 350,000 but I sent three different emails to them. The developers are not very good about backing their game. Over a year spending my money but no more. I looked in my spam folder and there is nothing.1 ★ I have experienced nothing but issues since the day I downloaded this.. I have contacted customer service numerous times and have been told to uninstall, reinstall the app.. I have now done that about 10 times... Not worth it.1 ★ Yesterday I was playing this game and some how I was collecting stars for system where you have to collect stars and then choose and win, and when I won 3 levels in a row with 2 stars but on the map showing 1 star. The box was there with box with accumulating stars counted 1 not 2 stars per level.Previous versionsSolitaire Grand Harvest 1.89.0 APK for Windows (#226, 161.4 MB)Solitaire Grand Harvest 1.88.1 APK for Windows (#225, 161.2 MB)Solitaire Grand Harvest 1.87.1 APK for Windows (#222, 160.6 MB)Solitaire Grand Harvest 1.86.0 APK for Windows (#219, 153.3 MB)Solitaire Grand Harvest 1.85.0 APK for Windows (#218, 152.8 MB)Solitaire Grand Harvest 1.84.1 APK for Windows (#215, 152.7 MB) grand harvest apk mod. solitaire grand harvest apk. solitaire grand harvest apkpure. solitaire grand harvest apk money. solitaire grand harvest hack apk. solitaire grand harvest mod apk 2020. solitaire grand harvest tripeaks mod apk. harvest moon grand bazaar apk
