You can browse the web on your iPhone or iPad with Chrome. On your iPhone or iPad, open App Store. In the search bar, enter Chrome. Tap Get. To install, follow the on-screen instructions. If prompted, enter your Apple ID password. To start browsing, tap Open. To open Chrome from your Home screen, tap Chrome . Post to the help community Get answers from community members Next: Buy & use a Play gift cardYou can install apps, games, and digital content on your device from the Google Play Store. Some content is available at no charge, and some you need to buy. You can use apps that you bought on Google Play on any Android device without the need to pay again if each device is signed into the same Google Account. To download an app: Open Google Play. On your Android device, open the Google Play app . On your Computer, go to play.google.com. Search or browse for an app or content. Select an item. Select Install (for no charge items) or the item's price. Tips: To check that an app is reliable, find out what other people say about it. Under the app's title, check the star ratings and the number of downloads. To read individual reviews, scroll to the "Ratings and reviews" section. If you can't find an app you want to install, there are reasons why. Learn why you can't find an app. If you find an app that you think is harmful, report it to us. Learn how to report bad apps. Check our comprehensive all-purpose section for additional resources. ← Return to Megathread Go to Battlefield2 I noticed a few months ago, that 4download.net went offline, I heard it was due to the obvious legal problems. If I type in the url now, it sends me to instead. I was just wondering if anyone knows whether the mirror site is just as legit as the original, which never caused me any problems. I'm a hobby producer who is still learning, I'm using the stuff there just for personal use. If I'm ever planning on releasing something, I will get the stuff via the honest route. Not sure if this is relevant here, but better safe than sorry I guess. Thx in advance! Page 2 Me di cuenta hace unos meses que 4download.net se desconectó, escuché que fue por los problemas legales obvios. Si escribo la url ahora, me manda a en su lugar. Solo me preguntaba si alguien sabe si el sitio espejo es tan legítimo como el original, que nunca me causó problemas. Soy un productor aficionado que todavía está aprendiendo, estoy usando el material de ahí solo para uso personal. Si alguna vez planeo lanzar algo, obtendré el material por la vía honesta. No estoy seguro si esto es relevante aquí, pero más vale prevenir que lamentar, supongo. ¡Gracias de antemano!
