Give yourself the crazy with these mental deformation films, bizarre and reality tests. Yeah, some old movies are boring. titles that hit the platform this month. Tassista (1976), Martin Scorsese's incendiary masterpiece of alienation and anger and urban anxiety can be the oldest vision of American urban submary ever put in film, a film is immersed in blood as much as in light, and almost forty years later still has the power that sinks the public in the mind and dirty, fetid World of Travis Bickle. â € "All animals come out at night: queens, fairies, drug addicts, get sick. One day a real rain will come and wash all the scum out in the streets. »Directed by the ambitious young Scorsese, who says that he was pushed to make this silent scream of a script by Paul Schrader, and starring Robert Deniro as Travis Bickle, It is a primary portrait and an intransigent vision carved from the night of New York, the summer heat and garbage of the Times Square Cesspool. Schrader came up with the screenplay as a ten-day furious script, drawing from his spiral in urban loneliness obsessed with inspiration from Jean-Paul Sartre's novel â e "the Nausseeâ (the diaries of Arthur Bremer, the man who shot George Wallace hopefully presidential, was also identified as inspiration, but Schrader recently said that, while he knew about Bremer. Travis Bickle is not a hero. It is a kitchen under pressure of alienated despair and anger that hates this existence is still disconnected that it no longer manages to relate with people outside its tawdry world of prostitutes and its sofizi and homeless. A restless and sleepless Vietnam veteran who takes a job driving a taxi on the night shift, muses over the urban trash in a narrative of the flow of consciousness of the poetry of long, tight hair). Deniro reads his journal's voices in your wind near to monotonous, factual racism and homophobia and disdain for wide-ranging human race that creeped into his non-permanent obsessions. His unrecognized intolerance (see in his reflexive expression of contempt every time he catches sight of an African-American on the street) becomes his excuse to unleash his anger in a violent mind under the sponata under the sponata of heroism and vigilante justice. And the final film, acid irony is that the world believes that its quarrying disappointments as much as it does. Shots and camera Michael Chapman create an almost infernal view of New York during the night seen through Bickle's eyes. The steam rises from theand the male covers as a primordial urban swamp (some street scenes were shot at slightly higher speeds, giving steam a bad, unreal, an unreal slowness when playing) and there TM is lurid, abruptly quality Violence, as a photo of weegee in the brutal glow of red police light, beveled and grotesqueexplosive. It was used largely on the 1974 position during a New York Summer Sweltering. The conditions of the film have helped to define the film have helped to define the film. from the night of shooting during a heat wave to the street shooting during the garbage strike ("wherever I pointed the camera, there have been rubbish riots," he remembered Scoreses). It is so visceral that you can feel the heat and the grime waft out of the screen. Taxi Driver won Palm dâ € 11 A the 1976 Cannes Festival and has since been praised as one of the great American films. Yet he only received four Oscar Award nominations (for Best Picture, for the performance of Robert De Niro and Jodie Foster and for the score of Bernard Herrmann) and won no one. NÃ © Martin Scorsese NÃ © Paul Schrader were appointed for direction and script, which surely illustrates the discomfort that the film is his bond years later to John Hinkley, who was obsessed with the film and with Jodie Foster and tried to assassinate President Ronald Reagan in him. More acute, Bernard Goetz became a modern day Travis Bickle when he shot and killed members of a roadband on the subway with self-justice justification. Taxi Driver looks only more prescient in the wake of his watching and the good guilty's verdict at him. It remains one of the guintessential films of the American cinema of the seventies, an outline explosion of modern Gothic cinema that overflows into madness and self-destruction. The primordial portrait, the uncompromising vision, the vivid directors and the fierce and fearful execution of De Niro inspired countless young directors and actors in the following decades. He won the Palm dâ  $\in$  11 at the Cannes Festival of 1976 and was added to the National Cinema Register in 1994. Rated on Blu-ray and DVD and VOD from Amazon Video and other SVOD services. A © 1996-2014, Amazon.com, Inc. or its affiliates [Welcome to Side Hustle # 66 of our current series! Where my friend Amanda shares a very interesting way to make extra money ... I can't say I saw this coming :)] I remember receiving the phone call ten years ago that would burn a great Olâ € <sup>™</sup> hole through My summer plans. I was promised a summer job at the Ministry of Migrants of Chester County, but when I called to confirm only weeks before my start date, my old boss said he had no need for me. Come again? Here I was sitting enough in my college courses to watch other last minute hustle for that lucrative summer job, and now my boss leaves me to stuff it so. I knew what I had to do. But I didn't want to do it. It was no glamor as a translation work with Mexican immigrants would have been; Even worse, it was a kind of family? But I needed money. It was inevitable: I would have guided the Amish for the summer. The work is simple: an Amish person, who can not own a vehicle, calls an Amish taxi driver and asks to be brought to Xyz to date X at a time X. Collect them, usually have a bazillion small stops to do (even if You knew you don't have access to more than a horse of For a while), and then takes them home. They pay you at the mile, and then pay you \$10 / time waiting while shopping, make a â € œVisitaâ € (this could mean something something make house calls to make hospital calls on family, friends and community members), or see a chiropractor, etc. That summer I made a sweeeet \$3,000 which was made up of \$0.60 / miles + \$10 / waiting time. I'd say my driving days ended up after, but to be honest the kind of gig grew up on me. Next semester my father marked a market turn for me at \$120 a day. There was only one problem: I had to wake up every Saturday at 4:00 to pickup. The earnings, however, exceeded the inconvenience of waking up before dawn, and allowed me to earn what it would take 23.3 hours to earn at my study job behind the desk. The best federal work study work you could get, btw - the university library at \$5.15 / hour. The family starts by taxi Amish Driving My father drove Amish full-time for 14 years. When I call him, I don't ask "how are you"? Instead, I greet him, "where are you"? Instead, I greet him, "where are you"? This is because his work literally brings him to all PA, the United States, and also to Canada. My father says he got his first "race" because, "A person Amish called one day and asked me if I had time to take him away. And he'd pay me for that. It worked. And it happened to tell his brother. The word came out, and suddenly my phone played and sang and played." [SIDE NOTE: You might think that people who say no to things like hinges because they are "motron" would have a problem with phones, but the fact is that it would put them at a serious disadvantage to make money. They don't actually have phone sheds are set by every single community, but are typically positioned around 400 ft. from a house. My father once took a boy who had access only to a community without television is that gossip + details are wandering around. Like, very fast. So, if you're good at what you do, you'll get random phone calls asking for more! Since my father already owned a minivan, his start-up costs were absolutely nothing besides a gas tank. (If you are starting today, fyi, there are costs now associated with doing this described below) My father currently drives about \$5,000, or \$70,000 per year. The costs involved with Taxi Guide My father is a numerical man as I am, so I will allow him to tell you more. "For the first years, I was happy with \$0.40 / miles of profit after paying gas and stuff like that. At \$1.00 / miles I'm charging now, you're about going to pay \$0.15/mile for repairs/costs on vehicle insurance/purchase for a period of 4-5 years (payment period), and your gas cost is about to be about \$0.20 / miles of profit." How do you disappear in terms of time? He's doing so and he says, "I normally do about \$22/hour, so I'm working about 3,600 hours/year." When you are just beginning, this feels like the easiest money in the world. And it can be. But there are a few more steps on that scale to make money in paradise. First, you need to take insurance and special registration. In Pennsylvania, these include: Car insurance: This varies, but my father pays about \$1,500 a year. DepartmentTransport: This costs \$40. You also need to put a registration label on the vehicle, as well as maintain an emergency kit and extinguisher in vehicles all the time. from PUC, which costs \$350 (renewed every year). Then you must reportinterne lorde al PUC. Il PUC valuta una parte da raccogliere e invia la fattura. The part l'assicurazione coerenti. "I prove a mettere 300,000 miglia sui miej vejcoli prima di commerciarlo. Dico di provaci. It is a fact that we have to do so. Probabilmente ho avuto, immagino, circa sei vejcoli in quei 14 anni. Li compro usati con un basso chilometraggio su di loro. Cerco di nonbuve un vejcolo con più di 35,000 miglia when lo acquisto. Solo non voglio mettere quei soldi per un vejcolo. Per esempio, il furgone che ho ora ho vendeto con 33.000 miglia su di esso when it was di 5 anni. Il che means che non è stato davvero esagerato. Ma sono stato in grado di comprarlo a un costo ragionevole perché era di 5 anni. Ho vendeto un nuovo furgone una volta, ma non ha eseguito alcun diverso rispetto a quelli usati, è solo costato il doppio di como." And poi c'è il gas. Nei suoi 14 anni, mio priest ha vista i prezzi del gas from \$1.50/gallon thin to \$4.00/gallon. Your annual newsletter? \$12,000...gulp Esperienze Non dimenticherò mai Essere una fly sul wall ad una cultura completely diversa senza dover lasciare il paese è abbastanza sorprendente. It is porto a alcune davvero cool e a volta solo le giuste opportunità interestnti. Come when ho portato una famiglia Amish alla spiaggia (sì, ho visa l'Amish nei loro costumi da bagno). The when I must carry a famiglia ai loro amici inglesi a Baltimora. Question ha portato a quidare in D.C. il giorno successivo e trare l'Amish nel loro prime viaggio in metropolitana (e dagli squardi dei passeggeri, la loro prima vista all'Amish!). La santa vacca was interesting quella. And poi c'era la versione Amish di una notte fuori sulla città in caba. Hanno chiesto se potevano mettere nel loro nastro adhesive (sì, cassetta... and probabilmente was contrabbando a quello) and mi walked benissimo. Question ha portato a chante e a ballare con la canzone dei Bellamy Brothers: "If ossi detto di avere un bel body, lo avresti tenuto contro di me?" (... "Se giurassi di essere un angelo, mi tratteresti come il diavolo stasera?") Puoi scommettere che è stato invitato during il periodo di Natale a una scene con mio priest per l'apprezzamento dei dipendenti dall'uomo che ho guidato al mercato. Ci siamo seduti fianco a fianco su balle di paglia in un fienile allestito come una bella sala da pranzo e mangiato un pasto fantastico insieme. When si tratta di questo, questo è stato uno dei migliori concerti che abbia mai avuto. Oltre ad essere molto lucrativo, ho dovuto fare cose come imparare la campagna mentre anche entere in qualche buon lavoro di maglia and lettura during i tempi di attesa. Ma le esperienze sono ciò che non va. # Amanda è la creatrice e scrittrice dietro FrugalConfessions. with - un sito in cui shows in cash-strapped Family CFOs come livee una vita VIP su un paycheck medio (cune di noodle di ramen).
