2008 lancer service reset

The new Lancer was officially revealed in January 2007 at the Detroit Motor Show and went on sale in North American markets in March 2007 as a 2008 model. This will light up in a few seconds, and after the engine starts, the indicator will turn off by itself. Time needed: 3 minutes. In this chapter we will tell you how to reset the service light on a 2017 Mitsubishi Lancer: 5 steps tutorial with an image guide on how to reset the oil service periodic maintenance inspection indicator reminder light on Mitsubishi Lancer from the year 2007-2008-2009-2010-2011-2012-2013-2014-2015-2016-2017. STEP 1 Put the ignition to the first position. STEP 2 Press the INFO BUTTON until the SPANNER service light is displayed. STEP 3 Then press and hold the INFO BUTTON until the spanner light flashing. STEP 4 While the spanner is flashing, press the INFO button again until "CLEAR" is displayed on the display. Learn More Mitsubishi Carisma : How to Read and Erase Check Engine STEP 5 Start the Engine to verify if the service maintenance reminder has been reset. This tutorial may possibly work to the following model Mitsubishi Galant Fortis (Japan) Mitsubishi Galant Proton Inspira (Malaysia) About Mitsubishi Lancer The Mitsubishi Lancer is a compact car produced by the Japanese manufacturer Mitsubishi since 1973. The Lancer has been marketed as the Colt Lancer, Dodge Colt, Plymouth Colt, Chrysler Valiant Lancer, Chrysler Lancer, Eagle Summit, Hindustan Lancer, Soueast Lioncel, and Mitsubishi Mirage in various countries at different times, and has been sold as the Mitsubishi Galant Fortis in Japan since 2007. Once you start the car again, service has been reset, and the inspection doesn't come up anymore. An extensive facelift was given to the car by Pininfarina's Chinese offices. In 2005, Mitsubishi revealed the "Concept X" model car at the Tokyo Motor Show and its "Concept Sportback" model at the Frankfurt Motor Show. In Japan, it was sold at a specific retail chain called Car Plaza. Learn More HOW TO RESET: Mitsubishi Montero Periodic Maintenance Between its introduction in 1973 and 2008, over six million units were sold. We will use the INFO button located behind the steering wheel. So thanks for reading, and have a nice day! (Visited 388 times, 1 visits today) In this tutorial, we can see how to reset the service in the Mitsubishi Lancer, an extremely simple and quick operation, to be performed only once all the required scheduled maintenance works have been completed. This indicator will appear lit when after the ignition is in the on position. First of all, let's go inside the car, then insert the key and turn it to the first position. Finally, complete the procedure by restarting the dashboard. The new Lancer was previewed by these two concepts. Please stay on this site because it will tell you how to do it. The periodic inspection or routine maintenance required light is a reminder to service your Lancer. New Lancer features Mitsubishi's next-generation RISE safety body. Learn More Mitsubishi eK Space ENGINE OIL Capacity and Specifications Last Updated on June 25, 2021 by ChristThe Mitsubishi Lancer is a car produced by the Japanese company Mitsubishi Motors Corporation since 1973 in sedan and coupé versions. So have you done regular service on the Mitsubishi Lancer and now want to reset the inspection light? Posted on 19 January 2024 by ScegliAuto According to Mitsubishi, there were nine generations of development before the current model Mitsubishi ended production of the Lancer in August 2017 worldwide, with the exception of Taiwan and Mainland China. It has also been sold as Mitsubishi Lancer Fortis in Taiwan with a different facelift than the Galant Fortis. So the way you reset is: Turn the ignition off To carry out this operation you must turn off the engine of your vehicle Show spanner sign on screen Navigate through the cluster screen here with the INFO button until you reach to the Spanner symbol Press and hold the INFO button So next what you're going to do is hold the INFO button until the spanner flashes Press the INFO button again Finally, release and then press the INFO again to execute the service reset and CLEAR will appear on the screen Note: This procedure applies to the ninth generation of the Mitsubishi Lancer (2007 2008 2009 2010 2011 2012 2013 2014 2015 2016 2017 model years). So that's how you reset the service light or periodic inspection warning on the Mitsubishi Lancer. Next, scroll through the various options on the display using the "INFO" button located to the left of the dashboard, until we reach the screen related to the service, and perform the reset by holding down the same button twice in a row.
