## Download data gta san

1 Clients Fremont Bank IBM Imation The New York Times Notable Project Beyond the Arc analyzes customer feedback data for a financial institution. They model the data and identify trends for the financial institution's team to act on to meet its customer satisfaction goals. The financial institution emphasized Beyond the Arc's data analysis skills and appreciated the team's ability to share its approach for analyzing data. The relationship is ongoing. "They are experienced and can explain the steps of a new process to improve. ... [W]e are very satisfied with their modeling because it is accurate, and we enjoy their work attitude." – Strategic Planning Manager, Financial Institution Based on your budget, timeline, and specifications we can help you build a shortlist of companies that perfectly matches your project needs. Schedule a free consultation with a Manifest Analyst. 2 Clients Comcast Western Digital Johnson & Johnson Health and Wellness FedEx Notable Project Trianz performed marketing analytics for a pharmaceutical manufacturer. Their team created a strategic roadmap to market specific drugs with certain target audiences. With their assistance, processes within the pharmaceutical manufacturer were automated and accuracy improved. "Their resources are professional and there were very few issues between the Trianz folks and our team."– Director of Sales Operations & Technologies, Drug Manufacturer 3 Clients Eventbrite Walmart ModCloth SurveyMonkey Notable Project A retail chain hired 3Q Digital to help with its paid search and social media marketing. From this partnership, the chain's conversion rates improved over 30%, and the ROI for search campaigns improved by 40%. "I'm most impressed with 3Q Digital's knowledge of all the advanced and best tactics, features, and betas. They're always much farther ahead, and they've actually got experience doing them. A lot of agencies don't have the experience." – Digital Marketing Manager, Retail Chain 4 Clients Microsoft Amazon Google Intel Notable Project ThirdEye Data designed and developed an AI platform from scratch for an AI and analytics products and services company. The platform used Google Cloud and Microsoft. This platform now is used by multiple Fortune 2000 companies. "Their founder was very good at understanding what we needed to do and then translating that, from a technology perspective, into what needed to get done. ... I also liked their flexible working style as they fit into how we work." – CEO, AI and Analytics Company 5 Clients AT&T GE Deutsche Bank Hewlett Packard Notable Project Following an early partnership, Exadel created an open-source and highly sophisticated IAM (Identity and Access Management) solution for enterprise use. From research to discrete data integrations, strategic roadmapping to cloud-delivery services – they wowed the client with their personal dedication, seamless communication, and resource management. "When it comes to open-source, their expertise is unparalleled. They knew what they were doing ... They're true experts." – Former Chief Security Architect, Fortune 500 Healthcare Company 6 Clients Diamante Blockchain Deutsche Bank Bank of Mauritius ING Notable Project HashCash Consultants provided blockchain app development services to a financial services company. The platform featured bitcoin invoicing, a merchant account management interface, a ticketing system, and more functionalities. The team worked quickly and efficiently, developing an impressive solution. "Once the product was launched, we got tremendous responses from clients who use cryptococurrency." — Product Manager, Financial Services Company 7 Clients Western Digital Sephora Salesforce Aramark Notable Project Hero Digital was hired by an art non-profit to take over a data migration after a previous vendor couldn't finish the project. Hero Digital went on to help with a general rebranding, redesigning and developing their website, managing SEO, and their Sitecore CMS. "We were in bad shape before Delphic began working with us. We've already seen significant increases in traffic, visibility, and conversions. We've also engaged Delphic for some of our SEM and pay-per-click campaigns. They've optimized our content for search at least twice already. Over half of our Web traffic comes in from search engines, so we're very, very pleased with that." – Web Production Coordinator, Non-Profit 8 Clients Notable Project DataEndure provided IT services to an energy software company. They expanded the client's data storage capacities by ten times, giving them over a hundred terabytes of storage. The client was very happy with the service provided and is impressed with the versatility of cloud storage solutions. "DataEndure's strength and depth of technical ability are above par and unchallenged by their competition." – VP IT, Energy Software Company 9 Clients Starbucks Hewlett-Packard VMware Microsoft Notable Project Datorium was hired by an academic institution to provide data modeling and analysis services. They even created a demo in the Octain Ensemble platform. Datorium produced high-quality work with excellent visualizations. "They make sure we're getting the highest impact out of the data we're looking at." - Healthcare Researcher, academic institution 10 Clients Notable Project Cro Metrics conducted website experiments and provided project management and analysis of results for a WebOps platform. The client was pleased with the collaboration to the point of keeping them on for years. Their work boosted lead generation and improved design aspects. "It's a very accountable program that we run that lets me easily measure ROI." – Brand & Digital Experience Director, WebOps Platform 11 Clients ::McAfee Excellence Award NASSCOM HR Best Practices Award (2016) Cloud Solutions Awards Gold (2015) Annual APAC Partner Summit Awards (2014) Notable Project Happiest Minds Technologies provided IT capabilities for a large project for a financial services company. They implemented strategy and support services that the client reported made the life of its employees much easier in terms of workload and efficiency. "They are an amazing service, and you should partner with them because they are reliable." — IT Manager, Financial Services Company 12 Notable Project NutaNXT Technologies provided application intelligence development services for a financial conglomerate. This involves AI implementation capabilities, visual media assessment, and image score among others. "NutaNXT Technologies understands the nuances of our healthcare platform and delivered quality work." 13 Clients Liberty Mutual Unilever Samsung Notable Project Antedote provided market research services for a memorialization company. They conducted qualitative and quantitative research through surveys and focus groups. The research allowed the partner to plan their annual roadmap and create appropriate marketing material. "They were professional and organized." –Senior Product Marketing Manager, Memorialization Company 14 Notable Project Heinsohn Business Technology provides full-stack software development for a healthcare company. They also support development for an iOS and Android app. Currently, they are reworking the client's website. "I am confident that Heinsohn can solve any problem that I will encounter." 15 Notable Project ClearScale provided Drupal and AWS migration and support for a utility company. The company was looking to migrate their platform to both Drupal and AWS. The company was satisfied with the result. "They definitely pushed themselves and there weren't any concerns about our timelines." - VP of Technology, Utility Company 16 Notable Project Computer Experts Corp. configured the networks of an IT company. The networks had to be built entirely from scratch. The company is extremely satisfied with Computer Experts Corp.'s results. "Their knowledge and experience are excellent. Everyone has a positive attitude." - Owner, IT Company 17 Notable Project Lyrix Tech delivers software components for the products of an e-learning technology company. They mainly use PHP for development, as well as MySQL databases and GitHub. "We have daily communication with them, and they feel like part of our team." 18 Clients Amazon Disney Bank of America Box 19 Notable Project Zuccotech developed a cross-promotion platform for a marketing company. They built the product using Javascript, React, and AWS infrastructure, and they continue to support the client through site management. "We've been very impressed with Zuccotech's steadfast expertise." 20 Clients Life Science Agtech BioPharma Notable Project Galliot helped develop the flagship product of a medical imaging SaaS company. They supplied a mid-level engineer to assist in AI and Python development. Their support allowed the client to progress with their project at a quicker pace. "The system required a toolkit to integrated with our API and display the results in our interface. They built the system using Python." — Project Manager, Machine Learning Medical Imaging Platform 1 Clients Comcast Western Digital Johnson & Johnson Health and Wellness FedEx Notable Project Trianz performed marketing analytics for a pharmaceutical manufacturer. Their team created a strategic roadmap to market specific drugs with certain target audiences. With their assistance, processes within the pharmaceutical manufacturer were automated and accuracy improved.
