Activity to fragment

We understand that you may have questions about your account and the measures we have taken to protect our advertisers. Below are answers to some of the most frequently asked questions about account? Why was my account deactivated? Because we must protect our proprietary detection system, we cannot share information with publishers about activity on their accounts, including third-party sites, users, or services that may be involved. Google takes invalid traffic very seriously and analyzes all clicks and impressions to determine if they follow a usage pattern that could artificially increase advertising costs or publisher revenue. If we determine that an AdSense account may pose a risk to our Google Ads advertisers, we may disable that account to protect our advertisers, we may disable that account to protect our advertisers. identify instances of invalid traffic at its sole discretion. Can my account be recovered after being disabled for invalid traffic? We are willing to work with you to solve all your problems. If you believe that this decision was made in error and you have a good faith belief that the Invalid Traffic was not the result of an act or omission on your part or your responsibility, you may submit a complaint using our Invalid Activity Complaint Form. . If we receive your objection, we will do our best to notify you immediately and take appropriate action if necessary. Please note that there is no guarantee that your account will be recovered. Once your appeal has been decided, further appeals cannot be considered. What are the tips for writing an effective invalid traffic appeal? Here are some tips that you might find useful when writing your complaint. Browse the most common reasons Accounts disabled due to invalid traffic. Do any of these reasons apply to you or your content? Are your friends clicking on your ads too often? Did you buy traffic that resulted in an increase in invalid traffic? Can you make changes to content and/or behavior to prevent invalid traffic from repeating? Check the implementation of ads could cause users to accidentally click on your ads. In the withdrawal form, enter the email address associated with your deactivated Google AdSense account. This will help us locate your account and reduce the time it takes to process your appeal. Let us know what changes you plan to make in the future. What systems or behaviors have you put in place to ensure this doesn't happen again? For example, tell us how you set up ad delivery, assessed traffic sources, etc. My account? We understand your concern about the actions taken on your account. Our actions are the result of careful research by our team of specialists, taking into account the interests of our advertisers, publishers and users. While you may be disappointed with our decision, we cannot continue to participate in AdSense. Because of this, these publishers cannot open new accounts. Google reserves the right to disable an account for any reason, including invalid traffic from any source. My account has been deactivated due to being linked to another deactivated due to being linked to another deactivated account. Can you tell me more about this relationship? As with invalid traffic, we cannot provide site owners with information about the relationships we find between subscriber accounts. Please note that we take this precaution with all of our publishers to protect our property. System. If we determine that an AdSense account to protect our advertisers' interests. Will I continue to receive AdSense revenue? Publishers that are disabled for invalid traffic and/or violations of our publisher policies may be eligible for a final payment for the portion of revenue not deemed invalid. Upon account deactivation, payments are suspended for 30 days to allow the final payment (if applicable) to be calculated. After this 30-day period, sign in to AdSense to view your remaining balance (if any) and arrange payment. Final balance deductions for invalid traffic and/or violations of publisher policies will be refunded to affected advertisers where possible and possible. I just received my PIN. what should i do with it? You can ignore this PIN as publishers who have been disabled for invalid activity will not receive payments in the future. I want to allow another AdSense publisher to place ads on my site. Will this cause problems with their account? Or are my pages banned? AdSense publisher's account status may differ from whether or not a site complies with their account? Or are my pages banned? AdSense publisher's account status may differ from whether or not a site complies with the AdSense program policies. another publisher's account may pose a risk to our Google Ads advertisers, we may disable it to protect our advertisers' interests. If someone creates an AdSense account with my relative, will their account be disabled? If we determine that an associated publisher's account may pose a risk to our Google Ads advertisers, we may disable it to protect our advertisers' interests. Will I continue to receive tax forms for the payments I receive? If you have previously received a payment from us necessarily. Learn more about paying taxes on your AdSense income. My account has been restored. Why aren't ads showing on my website, app, or video? After your AdSense account is restored, it may take up to 48 hours for all of our servers to be notified of the change and for the ads to resume. We apologize for the inconvenience and thank you for your patience. If you are a YouTube publisher, you may need to re-link your YouTube channel to your AdSense account. For instructions, see: Setting up your AdSense account for payments.
