Find a garage near you to carry out your car repairs or service. We list car mechanics and auto electricians in your area who have been assessed by our Trading Standards experts. All Which? Trusted Traders have passed our assessment process including credit, reference and background checks. You can read reviews left by their previous customers, which have been verified by our in-house moderators. Use the search bar to find garages near you or try our listings for: garages in Bristol garages in Glasgow garages in Oxford Need more help? Always a good price and AI service, took my car in a few minutes ago problem with ba... January 12th, 2024 K & T have been carrying out MOT's servicing and repairs on both mine and my father's... January 12th, 2024 Lovely people and a lovely garage, will always recommend them:) August 16th, 2023 Find a garage near to you or near to a location using address, postcode or city. Use the advanced search to find the type of garage you need, the car you have or even by price. Add garages to your compare or favourites list so you will always be able to find information easily. If you know of any garages not in our directory, please ask the garage owner to add his for free! List or claim your garage today and add/update/correct your information directly. Our platform makes it easy to compare garages based on current prices, services offered, and real customer experiences to find the best fit for your needs. By entering your vehicle registration, postcode, and service requirements, our system's AI automatically generates a list of nearby garages that fit your needs and vehicle specs. For each garage, you'll see their name and address, a star rating out of 5, distance from you, and a typical rate for their service. You can also click to learn more about their specific services, read customer reviews, and see photos of their facilities and past work. If there are special highlights (like "Manufacturer-trained mechanics"), you'll see those too. For every garage, we'll provide a personalised video quote that includes a full cost breakdown — hourly rates, materials, and additional fees — so you have a complete understanding of what to expect before scheduling an appointment. You can also filter your search results by price range, distance, or specific services offered. Read more about us Like for like service comparison Find the best price instantly No upfront payment Transparent ratings & reviews There's no easier or more convenient way to find, evaluate, and book your next garage appointment. Looking for the right garage on your own requires you to search through dozens of websites, read hundreds of reviews, and make multiple phone calls, all while trying to decipher technical jargon and confusing pricing structures. Choosing the garage closest to you isn't that much better — they might do shoddy work or slap on unnecessary fees that hike up the final bill. With all this information centralised in one easy-to-use platform, you save time and effort and you find the best deal. Quickly find emergency vehicle repairs Most auto garages close on holidays, Saturdays, and Sundays. Even if it's in the middle of the week, there's no guarantee there's a time slot for your repair. With Garage.co.uk, you can easily filter garages by appointment time and date availability. And, since our Garage Partners either use our CRM or integrate their own, they always get notified right away when someone makes an appointment and there are no scheduling conflicts. When you're interested in a garage and want to learn more about the cost, we'll send you a personalised video quote with everything you need to know. That means you'll know the total cost of your service or repair before booking instead of after the work is already finished. You can receive itemised video quotes for as many garages as you like. Save the quotes to your computer, tablet, or smartphone and compare them side by side. Personalised care and support from our team In addition to the garage you wind up going with, you'll have access to our dedicated support team as an account holder. If you need further information about a garage's services, want to change or cancel an appointment, or have any questions or concerns, our team is here for you. We pride ourselves on providing exceptional customer service and making sure your experience with Garage.co.uk is as smooth and stress-free as possible. Faster updates on service progress You wouldn't expect your garage to call you when your car is only halfway through its service or repair (that would require multiple phone calls and updates for each customer). But sending an update into our system takes only a click. That means it's no effort at all to let you know when they've started working on your car, reached the halfway mark, or are conducting your final inspection. And whenever they send an update, you'll automatically receive a notification. Peace of mind and stress-free driving Maintenance, repairs, and annual MOT tests are the necessary evils of driving in the UK. And too often, finding the right garage for these services adds stress to our already busy lives. Using our platform to do your research and book an appointment, you know you're getting the best service at a fair price. In your MyGarage dashboard, you also have tools for tracking and setting up notifications for MOT expiry, servicing, insurance renewal, and road tax payments, so you'll never have to worry about missing them again. 1000's OF HAPPY CUSTOMERS Whether you're going in for a simple MOT or a major replacement/repair, you can trust our platform to help you find the best option for your vehicle and budget. If you need, we can even find a garage for time-sensitive repairs, like a sudden breakdown, or specialised garages for luxury cars. Plus, our platform lets you schedule an appointment directly with your chosen garage — no need to make any phone calls or send emails. Once you select your time and date, the garage will receive your booking request and confirm it. After every appointment booked through the Garage.co.uk platform, we invite our users to leave a detailed review and rate their experience. Your ability to see qualified, third-party opinions is just one of the several reasons our network of garages maintains a higher-than-average standard of service. Through our service, you'll also have access to an extensive video library and hundreds of articles. You can learn about common car problems, how to prepare for an MOT, and just about anything else you could want to know about car maintenance and repair. Once you enter your vehicle reg, location, and service requirement, our backend does the heavy lifting. All you have to do is compare nearby garages for quality, price, and specialisations. When you reserve your appointment, you can even arrange a free pickup for your vehicle. Once the work is finished, you'll pay at the garage. Then, tell us about your experience and publish a review! Our AI technology compares 100's of garages in your area to match you with the best garage based on your vehicle make, model, age and garage rating. I recently used Garage.co.uk to book a full service and MOT for my car. The process was incredibly straightforward. By entering my car registration and postcode, I received multiple quotes from local garages. I chose one with great reviews and a competitive price.
