GROUNDING INSTRUCTIONS

For a grounded, cord-connected appliance:
This appliance must be grounded. In the event of a malfunction or breakdown, grounding will reduce the risk of electric shock by providing a path of least resistance for electric current. This appliance is equipped with a cord having an equipment-grounding conductor and a grounding plug. The plug must be plugged into an appropriate outlet that is installed and grounded in accordance with all local codes and ordinances.

WARNING: Improper connection of the equipment-grounding conductor can result in a risk of electric shock. Check with a qualified electrician or service representative if you are in doubt as to whether the appliance is properly grounded. Do not modify the plug provided with the appliance; if it will not fit the outlet, have a proper outlet installed by a qualified electrician.

For a permanently connected appliance:
This appliance must be connected to a grounded metal, permanent wiring system, or an equipment-grounding conductor must be run with the circuit conductors and connected to the equipment-grounding terminal or lead on the appliance.

SAVE THESE INSTRUCTIONS

2. Remove shipping base
IMPORTANT: Removing shipping base is necessary for proper operation. If your washer includes a sound shield, please refer to the instructions included with the sound shield to install it at this time.

To avoid damaging floor, place cardboard supports from shipping carton on floor behind washer. Tip washer back and place on cardboard supports. Remove shipping base (some models require shipping base to be rotated 90° to the right before pulling off). Set washer upright.

3. Remove packaging material from inside washer

Remove tape from washer lid, open lid, and remove packaging material from washer tub. Be sure that all parts have been removed from inside washer.

NOTE: Keep packaging material for inside washer in case you need to move washer later.

4. Free power cord

Firmly grasp power cord plug and pull to free from rear panel. Gently place power cord over console to allow free access to back of washer.

INSTALLATION

Unpacking

WARNING
Excessive Weight Hazard
Use two or more people to move and install or uninstall appliance. Failure to do so can result in back or other injury.

Before you start: remove shipping materials. It is necessary to remove all shipping materials for proper operation and to avoid excessive noise from washer.

1. Move Washer

Move washer to within 4 ft. (1.2 m) of its final location; it must be in a fully upright position.
NOTE: To avoid floor damage, set washer onto cardboard before moving it and make sure lid is taped shut.
